**Consolidated Financial Statements as of  
December 31, 2017 and 2018 and for  
Each of the Three Years in the  
Period Ended December 31, 2018 and  
Report of Independent Registered Public  
Accounting Firm**

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Chunghwa Telecom Co., Ltd.

### Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Chunghwa Telecom Co., Ltd. and subsidiaries (the “Company”) as of December 31, 2017 and 2018, the related consolidated statements of comprehensive income, changes in equity, and cash flows, for each of the three years in the period ended December 31, 2018, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2018, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 6 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Taiwan.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 29, 2019, expressed an unqualified opinion on the Company’s internal control over financial reporting.

### Change in Accounting Principle

As discussed in Note 5 to the consolidated financial statements, the Company changed its method of accounting for financial instruments and revenue from contracts with customers in 2018 due to the adoption of IFRS 9 and IFRS 15.

### Basis for Opinion

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

# CHUNGHWA TELECOM CO., LTD. AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (In Millions of New Taiwan Dollars, Unless Stated Otherwise)

---

### 1. GENERAL

Chunghwa Telecom Co., Ltd. (“Chunghwa”) was incorporated on July 1, 1996 in the Republic of China (“ROC”) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications (“MOTC”). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications (“DGT”). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

Effective August 12, 2005, the MOTC completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the “SFC”) for a domestic initial public offering and its common stocks were listed and traded on the Taiwan Stock Exchange (the “TWSE”) on October 27, 2000. Certain of Chunghwa’s common stocks were sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa’s common stocks were also sold in an international offering of securities in the form of American Depository Shares (“ADS”) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the “NYSE”). The MOTC sold common stocks of Chunghwa by auction in the ROC on August 9, 2005 and completed the second international offering on August 10, 2005. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

Chunghwa together with its subsidiaries are hereinafter referred to collectively as “the Company”.

### 2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were authorized for issue by the management on April 22, 2019.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company initially applied IFRS 9 “Financial Instruments” and IFRS 15 “Revenue from Contracts with Customers” on January 1, 2018, and elected not to reflect the figures on a retrospective basis in comparative periods. Different accounting policies for each accounting period as a result of the application of new accounting standards are listed by year separately.

#### **Statement of Compliance**

The accompanying consolidated financial statements have been prepared in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board (collectively, “IFRSs”).

## **Basis of Preparation**

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values and net defined benefit liabilities (assets) which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

## **Current and Noncurrent Assets and Liabilities**

Current assets include:

- a. Assets held primarily for the purpose of trading;
- b. Assets expected to be realized within twelve months after the reporting period; and
- c. Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Current liabilities include:

- a. Liabilities held primarily for the purpose of trading;
- b. Liabilities due to be settled within twelve months after the reporting period; and
- c. Liabilities for which the Company does not have an unconditional right to defer settlement for at least twelve months after the reporting period.

Assets and liabilities that are not classified as current are classified as noncurrent.

Light Era Development Co., Ltd. (LED) engages mainly in development of property for rent and sale. The assets and liabilities of LED related to property development within its operating cycle, which is over one year, are classified as current items.

## **Basis of Consolidation**

- a. Principles for preparing consolidated financial statements

The consolidated financial statements incorporate the financial statements of Chunghwa and entities controlled by Chunghwa (its subsidiaries).

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by the Company.

All inter-company transactions, balances, income and expenses are eliminated in full upon consolidation.

### Attribution of total comprehensive income to the noncontrolling interests

Total comprehensive income of subsidiaries is attributed to the stockholders of the parent and to the noncontrolling interests even if it results in the noncontrolling interests having a deficit balance.

### Changes in the Company's ownership interests in subsidiaries

Changes in the Company's ownership interests in subsidiaries that do not result in the Company losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Company's interests and the noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the

noncontrolling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to stockholders of the parent.

b. The subsidiaries in the consolidated financial statements

The detail information of the subsidiaries at the end of reporting period was as follows:

Name of Investor	Name of Investee	Main Businesses and Products	Percentage of Ownership		Note
			2017	2018	
Chunghwa Telecom Co., Ltd.	Senao International Co., Ltd. ("SENAO")	Handset and peripherals retailer; sales of CHT mobile phone plans as an agent	29	28	a)

(Concluded)

- a) SENAO transferred its treasury stock to employees in June 2018 and the Company's ownership interest in SENAO decreased to 28.18% as of December 31, 2018. As Chunghwa controls five out of nine seats of the Board of Directors of SENAO through the support of large beneficial stockholders, the accounts of SENAO are included in the consolidated financial statements.
- b) Chunghwa and CHI disposed some shares of CHIEF in June 2017 before CHIEF traded its shares on the emerging stock market according to the local requirements. The Company's equity ownership of CHIEF decreased to 70.43% as of December 31, 2017. CHIEF issued new shares in March and November 2018 as its employees exercised their options. In addition, Chunghwa and CHI disposed some shares of CHIEF in May 2018 before CHIEF traded its shares on the General Stock Market of the Taipei Exchange according to the local requirements. Furthermore, Chunghwa and CHI did not participate in the capital increase of CHIEF in June 2018. Therefore, the Company's equity ownership interest in CHIEF decreased to 60.23% as of December 31, 2018.
- c) Chunghwa invested 100% equity shares of Chunghwa Telecom (Thailand) Co., Ltd. ("CHTT") in March 2017.
- d) Chunghwa invested 80.27% equity shares of CHT Security Co., Ltd. ("CHTSC") in December 2017.
- e) New Prospect was approved to dissolve its business in April 2017. The liquidation of New Prospect was completed in May 2017.
- f) SENAO subscribed for all the shares in the capital increase of Youth in December 2018. Therefore, the Company's equity ownership interest in Youth increased from 89% to 93%.
- g) SENAO invested 100% equity shares of SENYOUNG Insurance Agent Co., Ltd. ("SENYOUNG") in November 2017.
- h) LED invested 60% equity shares of Taoyuan Asia Silicon Valley Innovation Co., Ltd. ("TASVI") in March 2018. TASVI was approved to end and dissolve its business in April 2019. The liquidation of TASVI is still in process.
- i) Concord was approved to end and dissolve its business in August 2017. The liquidation of Concord was completed in January 2018.
- j) CHI did not participate in the capital increase of CHPT in September 2017 and disposed some shares of CHPT from April to August 2018. Therefore, its ownership interest in CHPT decreased to 34.25% as of December 31, 2018. However, considering the absolute and relative size of ownership interest, and the dispersion of shares owned by the other stockholders, the management concluded that the Company has a sufficiently dominant voting interest to direct the relevant activities; hence, CHPT is deemed as a subsidiary of the Company.

- k) GNSS (Shanghai) completed its liquidation in August 2017 and Concord received the proceeds from the liquidation.
- l) STF was approved to end and dissolve its business in September 2018. The liquidation of STF is still in process.
- m) SEITS completed its liquidation in March 2018.
- n) SITJ was approved to end and dissolve its business in April 2018. The liquidation of SITJ was completed in March 2019.
- o) JZIT completed its liquidation in December 2018 and CHC received the proceeds from the liquidation.

The following diagram presents information regarding the relationship and ownership percentages between Chunghwa and its subsidiaries as of December 31, 2018:

## Foreign Currencies

In preparing the financial statements of each individual entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation denominated in foreign currencies are recognized in profit or loss in the period in which they arise.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined and related exchange differences are recognized in profit or loss. Conversely, when the fair value changes were recognized in other comprehensive income, related exchange difference shall be recognized in other comprehensive income.

Non-monetary items that are measured at historical cost in a foreign currency are not retranslated.

Chunghwa uses New Taiwan dollars (NT\$) as the functional currency. For the purposes of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations (including of the subsidiaries and associates in other countries or currencies used different with Chunghwa) are translated into New Taiwan dollars using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and attributed to stockholders of the parent and noncontrolling interests as appropriate.

### **Cash Equivalents**

Cash equivalents include commercial paper, time deposits and negotiable certificates of deposit with original maturities within three months from the date of acquisition, highly liquid, readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

### **Inventories**

Inventories are stated at the lower of cost or net realizable value item by item, except for those that may be appropriate to group items of similar or related inventories. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. The calculation of the cost of inventory is derived using the weighted-average method.

### **Buildings and Land Consigned to Construction Contractors**

Inventories of LED are stated at the lower of cost or net realizable value item by item, except for those that may be appropriate to group as similar items or related inventories. Land acquired before construction is classified as land held for development, and then reclassified as land held under development after LED begins its construction project.

Upon the completion of the construction project, LED recognizes revenues in the amount of proceeds from customers for land and buildings and related costs when ownership is transferred to the customers. The unsold portion of the completed construction project is transferred to land and building held for sale.

### **Investments in Associates and Joint Ventures**

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. A joint venture is a joint arrangement whereby the Company and other parties that have joint control of the arrangement have rights to the net assets of the arrangement.

Investments accounted for using the equity method include investments in associates and interests in joint ventures. Under the equity method, an investment in an associate or a joint venture is initially recognized at cost and adjusted thereafter to recognize the Company's share of profit or loss and other comprehensive income of the associate and joint venture as well as the distribution received.

When the Company reduces its ownership interest in an associate or a joint venture but the Company continues to use the equity method, the Company reclassifies to profit or loss the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

Any excess of the cost of acquisition over the Company's share of the fair value of the identifiable net assets and liabilities of an associate or a joint venture at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment and shall not be amortized. Any excess of the Company's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognized immediately in profit or loss.

When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

When the Company transacts with its associate and joint venture, profits and losses resulting from the transactions with the associate and joint venture are recognized in the Company's consolidated financial statements only to the extent of interests in the associate and joint venture that are not related to the Company.

### **Property, Plant and Equipment**

Property, plant and equipment are initially measured at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment loss.

Property, plant and equipment in the course of construction are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

Depreciation on property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. Freehold land is not depreciated. The estimated useful lives, residual values and depreciation method are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis.

On derecognition of an item of property, plant and equipment, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period in which the property is derecognized.

### **Investment Properties**

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties also include land held for a currently undetermined future use.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment loss. Depreciation is recognized using the straight-line method.

For a transfer from the investment properties to property, plant and equipment, the deemed cost of the property, plant and equipment for subsequent accounting is its carrying amount at the commencement of owner-occupation.

For a transfer from the property, plant and equipment to investment properties, the deemed cost of the investment properties for subsequent accounting is its carrying amount at the end of owner-occupation.

On derecognition of the investment properties, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period in which the property is derecognized.

## **Goodwill**

Goodwill arising from the acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment loss.

For the purpose of impairment testing, goodwill is allocated to each of the Company's cash-generating units or groups of cash-generating units (referred to as "cash-generating unit") that are expected to benefit from the synergies of the business combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired, by comparing its carrying amount, including the attributable goodwill, with its recoverable amount. However, if the goodwill allocated to a cash-generating unit was acquired in a business combination during the current annual period, that unit shall be tested for impairment before the end of the current annual period. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss is recognized directly in profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

## **Intangible Assets Other Than Goodwill**

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful life, residual value and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. The residual value of an intangible asset with a finite useful life shall be assumed to be zero unless the Company expects to dispose of the intangible asset before the end of its economic life. Intangible assets with indefinite useful lives that are acquired separately are measured at cost less accumulated impairment loss.

Intangible assets acquired in a business combination and recognized separately from goodwill are initially recognized at their fair value at the acquisition date (which is regarded as their cost). Subsequent to initial recognition, they are measured on the same basis as intangible assets that are acquired separately.

Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss in the period in which the asset is derecognized.

## **Impairment of Tangible Assets, Intangible Assets (Other Than Goodwill) and Incremental Costs of Obtaining Contracts**

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets, excluding goodwill, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

Impairment loss from the assets related to incremental cost of obtaining contracts is recognized to the extent that the carrying amount of the assets exceeds the remaining amount of consideration that the Company expects to receive in exchange for related goods or services less the costs which relate directly to providing those goods or services.

When an impairment loss is subsequently reversed, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

## **Financial Instruments**

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

### **a. Financial assets**

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. The regular way of transaction means the purchase or sale of financial assets delivered within the time frame established by regulation or convention in the marketplace.

#### **1) Measurement category**

##### Prior to 2018

#### **a) Financial assets at fair value through profit or loss (FVTPL)**

Financial assets are classified as at FVTPL when the financial asset is held for trading.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss does not incorporate any dividend or interest earned on the financial asset.

#### **b) Held-to-maturity financial assets**

Held-to-maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturity date that the Company has positive intention and ability to hold to maturity other than those that are designated as at fair value through profit or loss or as available-for-sale and those that meet the definition of loans and receivables on initial recognition.

The Company invests in bank debentures and corporate bonds with specific credit ratings and the Company has positive intent and ability to hold to maturity, are classified as held-to-maturity investments.

Subsequent to initial recognition, held-to-maturity financial assets are measured at amortized cost using the effective interest method less any impairment loss.

c) Available-for-sale financial assets (AFS financial assets)

AFS financial assets are non-derivatives that are either designated as AFS or are not classified as loans and receivables, held-to-maturity financial assets or financial assets at fair value through profit or loss.

The Company invests in listed stocks, emerging market stocks, and non-listed stocks. Among these investments, those that have a quoted market price in an active market are classified as AFS and measured at fair value at the end of each reporting period; the others that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost less any identified impairment losses at the end of each reporting period. If, in a subsequent period, the fair value of the financial assets can be reliably measured, the financial assets are remeasured at fair value. The difference between the carrying amount and the fair value is recognized in other comprehensive income. Any impairment losses are recognized in profit or loss.

Changes in the carrying amount of AFS monetary financial assets relating to changes in foreign currency exchange rates, interest income calculated using the effective interest method and dividends on AFS equity investments are recognized in profit or loss. Other changes in the carrying amount of AFS financial assets are recognized in other comprehensive income and will be reclassified to profit or loss when the investment is disposed of or is determined to be impaired.

Dividends on AFS equity instruments are recognized in profit or loss when the Company's right to receive the dividends is established.

d) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including cash and cash equivalents, trade notes and accounts receivable, receivables from related parties, other financial assets and refundable deposits) are measured at amortized cost using the effective interest method, less any impairment loss, except for short-term receivables as the effect of discounting is immaterial.

2018

a) Financial assets at fair value through profit or loss (FVTPL)

Financial asset is classified as at FVTPL when the financial asset is mandatorily classified as at FVTPL. Financial assets mandatorily classified as at FVTPL include investments in equity instruments which are not designated as at fair value through other comprehensive income (FVOCI).

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss does not incorporate any dividend earned on the financial asset. Fair value is determined in the manner described in Note 39.

b) Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- i. The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and

- ii. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost are measured at amortized cost, which equals to gross carrying amount determined by the effective interest method less any impairment loss, except for short-term receivables as the effect of discounting is immaterial. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of financial assets.

c) Investments in equity instruments at FVOCI

On initial recognition, the Company may make an irrevocable election to designate investments in equity instruments as at FVOCI. Designation at FVOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments. Instead, it will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Company's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

2) Impairment of financial assets and contract assets

Prior to 2018

Financial assets, other than those at FVTPL, are assessed to determine whether there is objective evidence that an impairment loss has occurred at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For financial assets carried at amortized cost, such as held-to-maturity financial assets, and trade notes and accounts receivable, assets that are individually assessed and not impaired are, in addition, assessed for impairment on a collective basis.

For financial assets carried at amortized cost, the amount of the impairment loss recognized is mainly based on the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. However, since the discounted effect of short-term receivables is immaterial, the impairment loss is recognized on the difference between carrying amount and estimated future cash flow.

For financial assets measured at amortized cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

For AFS equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

When an AFS financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss in the period.

In respect of AFS equity securities, impairment losses previously recognized in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognized in other comprehensive income.

For financial assets that are carried at cost, the amount of the impairment loss is mainly measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss is not reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade notes and accounts receivable and other receivables, where the carrying amount is reduced through the use of an allowance account. When trade notes and accounts receivable and other receivables are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss except for uncollectible trade notes and accounts receivable and other receivables that are written off against the allowance account.

#### 2018

The Company recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including accounts receivable) and contract assets.

The Company recognizes lifetime Expected Credit Loss (ECL) for accounts receivable and contract assets. For all other financial instruments, the Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Expected credit losses reflect the weighted average of credit losses with the respective risks of a default occurring as the weights. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The Company recognizes an impairment loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

### 3) Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

#### Prior to 2018

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss.

## 2018

On derecognition of a financial asset measured at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss.

On derecognition of investments in equity instruments at FVOCI in its entirety, the cumulative gain or loss is directly transferred to retained earnings, and it is not reclassified to profit or loss.

### b. Financial liabilities

#### 1) Subsequent measurement

Except for financial liabilities at FVTPL, all the financial liabilities are subsequently measured at amortized cost using the effective interest method.

#### 2) Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

### c. Derivative financial instruments

The Company enters into derivative financial instruments to manage its exposure to foreign exchange rate risks, including forward exchange contracts.

Derivatives are initially measured at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship. When the fair value of derivative financial instruments is positive, the derivative is recognized as a financial asset; when the fair value of derivative financial instruments is negative, the derivative is recognized as a financial liability.

## **Hedge Accounting**

The Company designates some derivatives instruments as cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss.

The associated gains or losses that were recognized in other comprehensive income are reclassified from equity to profit or loss as a reclassification adjustment in the line item relating to the hedged item in the same period when the hedged item affects profit or loss. If a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability, the associated gains and losses that were recognized in other comprehensive income are removed from equity and are included in the initial cost of the non-financial asset or non-financial liability.

Before 2018, hedge accounting was discontinued prospectively when the Company revoked the designated hedging relationship, or when the hedging instrument expired or was sold, terminated, or exercised, or when the hedging instrument no longer met the criteria for hedge accounting. Starting from 2018, the Company discontinues hedge accounting only when the hedging relationship ceases to meet the qualifying criteria; for instance, when the hedging instrument expires or is sold, terminated or exercised. The cumulative gain or loss on the hedging instrument that has been previously recognized in other comprehensive income from the period when the hedge was effective remains separately in equity until the forecast transaction occurs. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in profit or loss.

## **Provisions**

Provisions are measured at the best estimate of the expenditure required to settle the Company's obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. The provisions for warranties claims and trade-in right are made by management according to the sales agreements which represent the management's best estimate of the future outflow of economic benefits. The provisions of warranties claims are recognized as operating cost and prior to 2018, the provisions of trade-in right are recognized as the reduction of revenue in the period in which the goods are sold.

## **Revenue Recognition**

### Prior to 2018

Revenue from the sale of goods is recognized when all the following conditions are satisfied:

- a. The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- b. The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- c. The amount of revenue can be measured reliably;
- d. It is probable that the economic benefits associated with the transaction will flow to the Company; and
- e. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts for goods sold in the normal course of business, net of sales discounts and volume rebates. For trade notes and accounts receivable due within one year from the balance sheet date, as the nominal value of the consideration to be received approximates its fair value and transactions are frequent, fair value of the consideration is not determined by discounting all future receipts using an imputed rate of interest.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance telephone services), cellular services, internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon seconds or minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, mobile, internet and data services) are accrued every month, and (c) prepaid services (fixed-line, mobile, internet and data services) are recognized as income based upon actual usage by customers.

Where the Company enters into transactions which involve both the provision of telecommunications service bundled with products such as handsets, total consideration received from products and telecommunications service in these arrangements are allocated and measured using units of accounting within the arrangement based on their relative fair values limited to the amount paid by the customer for the products.

Services revenue is recognized when service provided. Revenue from a contract to provide services is recognized by reference to the stage of completion of the contract.

Dividend income from investments is recognized when the stockholder's right to receive payment has been established under the premises when it is probable that the economic benefit related to the transactions will flow to the Company and that the revenue can be reasonably measured.

Interest income from a financial asset is recognized when it is probable that the economic benefits related to the transactions will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

When another party is involved in providing goods or services to a customer, the Company is acting as a principal when it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services; otherwise, the Company is acting as an agent. When the Company is acting as a principal, gross inflow of economic benefits arising from transactions is recognized as revenue. When the Company is acting as an agent, revenue is recognized in the amount of commission.

## 2018

The Company identifies the performance obligations in the contract with the customers, allocates transaction price to each performance obligation and recognizes revenue when performance obligations are satisfied.

Sales of products are recognized as revenue when the Company delivers products and the customer accepts and controls the product. Except for the consumer electronic products such as mobile devices sold in channel stores which are usually in cash sale, the Company recognizes revenues and corresponding trade notes and accounts receivable for sale of other electronic devices.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance telephone services), cellular services, internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon seconds or minutes of traffic processed when the services are provided in accordance with contract terms. The usage revenues and corresponding trade notes and accounts receivable are recognized monthly.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are first recognized as contract liabilities and revenues are recognized subsequently over the average expected customer service periods, (b) monthly fees (on fixed-line services, mobile, internet and data services) and related receivables are accrued monthly, and (c) prepaid services (fixed-line, mobile, internet and data services) are recognized as contract liabilities upon collection considerations from customers and are recognized as revenues subsequently based upon actual usage by customers.

Where the Company enters into transactions which involve both the provision of telecommunications service bundled with products such as handsets, total consideration received from products and telecommunications service in these arrangements are allocated based on their relative stand-alone selling price. The amount of sales revenue recognized for products is not limited to the amount paid by the customer for the products. When the amount of sales revenue recognized for products exceeded the amount paid by the customer for the products, the difference is recognized as contract assets. Contract assets are reclassified to accounts receivable when the amounts become collectible from customers

subsequently. When the amount of sales revenue recognized for products was less than the amount paid by the customer for the products, the difference is recognized as contract liabilities and revenues are recognized subsequently when the telecommunications service are provided.

For project business contracts, if a substantial part of the Company's promise to customers is to manage and coordinate the various tasks and assume the risks of those tasks to ensure the individual goods or services are incorporated into the combined output, they are treated as a single performance obligation since the Company provides a significant integration service. The Company recognizes revenues and corresponding accounts receivable when the project business contract is completed and accepted by customers.

For service contracts such as maintenance and warranties, customers simultaneously receive and consume the benefits provided by the Company; thus revenues and corresponding accounts receivable of service contracts are recognized over the related service period.

When another party is involved in providing goods or services to a customer, the Company is acting as a principal if it controls the specified good or service before that good or service is transferred to a customer; otherwise, the Company is acting as an agent. When the Company is acting as a principal, gross inflow of economic benefits arising from transactions is recognized as revenue. When the Company is acting as an agent, revenue is recognized in the amount of commission.

#### **Incremental costs of obtaining contracts**

Commissions and equipment subsidy related to telecommunications service as a result of obtaining contracts are recognized as an asset under the incremental costs of obtaining contracts to the extent the costs are expected to be recovered, and are amortized over the contract period. However, the Company elects not to capitalize the incremental costs of obtaining contracts if the amortization period of the assets that the Company otherwise would have recognized is expected to be one year or less.

#### **Leasing**

a. The Company as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease.

b. The Company as lessee

Operating lease payments are recognized as an expense on a straight-line basis over the lease term.

#### **Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Other than stated above, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

## **Employee Benefits**

### **a. Short-term employee benefits**

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

### **b. Retirement benefits**

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered service entitling them to the contributions.

Defined benefit costs (including service cost, net interest and rereasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost and gains or losses on settlements) and net interest on the net defined benefit liability (asset) are recognized as employee benefits expense in the period they occur. Rereasurement, comprising (a) actuarial gains and losses; and (b) the return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset), is recognized in other comprehensive income in the period in which they occur. Rereasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Net defined benefit liability (asset) represents the actual deficit (surplus) in the Company's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

### **c. Other long-term employee benefits**

Other long-term employee benefits are accounted for in the same way as the accounting required for defined benefit plan except that rereasurement is recognized in profit or loss.

## **Share-based Payment Arrangements - Employee Stock Options**

The fair value determined at the grant date of the employee share options is expensed on a straight-line basis over the vesting period, based on the Company's estimate of employee stock options that are expected to ultimately vest, with a corresponding increase in additional paid-in capital - employee stock options. If the equity instruments granted vest immediately at the grant date, expenses are recognized in full in profit or loss.

At the end of each reporting period, the Company revises its estimate of the number of employee share options expected to vest. The impact of the revision of the original estimates is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to additional paid-in capital - employee stock options.

## **Income Tax**

Income tax expense represents the sum of the tax currently payable and deferred tax.

### **a. Current tax**

The current tax is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Income tax on unappropriated earnings is accrued during the period the earnings arise and adjusted to the extent that distributions are approved by the stockholders in the following year.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

b. Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. If the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit, the resulting deferred tax asset or liability is not recognized. In addition, a deferred tax liability is not recognized on taxable temporary difference arising from initial recognition of goodwill.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences, unused loss carry forward and unused tax credits from purchases of machinery, equipment and technology, and research and development expenditures to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

c. Current and deferred tax

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income, in which case, the current and deferred tax are also recognized in other comprehensive income.

Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### **4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION, UNCERTAINTY AND ASSUMPTION**

In the application of the Company's accounting policies, the management is required to make judgments, estimates and assumptions which are based on historical experience and other factors that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed by the management on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation and uncertainty at the end of the reporting period. Actual results may differ from these estimates.

##### **a. Revenue recognition**

The Company's project agreements are mainly to provide one or more equipment or services to customers. In order to fulfill the agreements, another party may be involved in some agreements. The Company considers the following factors to determine whether the Company is a principal of the transaction: whether the Company is the primary obligation provider of the agreements, its exposures to inventory risks and the discretion in establishing prices, etc. The determination of whether the Company is a principal or an agent will affect the amount of revenue recognized by the Company. Only when the Company is acting as a principal, gross inflows of economic benefits arising from transactions is recognized as revenue.

##### **b. Impairment of trade notes and accounts receivable**

###### Prior to 2018

When there is objective evidence showed indications of impairment, the Company considers the estimation of future cash flows. The amount of impairment will be measured at the difference between the carrying amount and the present value of estimated future cash flows discounted by the original effective interest rates of the financial assets. However, as the impact from discounting short-term receivables is not material, the impairment of short-term receivables is measured at the difference between the carrying amount and the estimated undiscounted future cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise.

###### 2018

The provision for impairment of trade notes and accounts receivable is based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and in selecting the inputs to the impairment calculation, based on the Company's past experience, current market conditions as well as forward looking information at the end of each reporting period. For details of the key assumptions and inputs used, see Note 11. Where the actual future cash flows are less than expected, a material impairment loss may arise.

##### **c. Fair value measurements and valuation processes**

For the assets and liabilities measured at fair value without quoted prices in active markets, the Company's management determines the appropriate valuation techniques for the fair value measurements and whether to engage third party qualified appraisers based on the related regulations and professional judgments.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities was disclosed in Note 39. If the actual changes of inputs in the future differ from expectation, the fair value may vary accordingly. The Company updates inputs periodically to monitor the appropriateness of the fair value measurement.

d. Provision for inventory valuation and obsolescence

Inventories are stated at the lower of cost or net realizable value. Estimates of net realizable value are based on the most reliable evidence available at the time the estimates are made at the end of reporting period. These estimates take into consideration fluctuations of price or cost directly relating to events occurring after the end of the period to the extent that such events confirm conditions existing at the end of the period. Inventory write-downs are determined on an item by item basis, except for those similar items which could be categorized into the same groups. The Company uses the inventory holding period and turnover as the evaluation basis for inventory obsolescence losses.

e. Impairment of tangible and intangible assets

In the process of evaluating the potential impairment of tangible and intangible assets, the Company is required to consider internal and external indicators of impairment and make subjective judgments in determining the independent cash flows, useful lives, expected future revenue and expenses related to the specific asset groups within the context of the telecommunication industry. Any changes in these estimates based on changed economic conditions or business strategies could result in significant impairment charges in future periods.

f. Useful lives of property, plant and equipment

As discussed in Note 3, "Summary of Significant Accounting Policies - Property, Plant and Equipment", the Company reviews estimated useful lives of property, plant and equipment at the end of each year.

g. Recognition and measurement of defined benefit plans

Net defined benefit liabilities and the resulting pension expense under defined benefit pension plans are calculated using the Projected Unit Credit Method. Actuarial assumptions comprise the discount rate, employee turnover rate, average future salary increase and etc. Changes in economic circumstances and market conditions will affect these assumptions and may have a material impact on the amount of the expense and the liability.

h. Control over subsidiaries

As discussed in Note 3, some entities are subsidiaries of the Company although the Company only owns less than 50% ownership interests in these entities. After considering the Company's absolute size of holding in the entity and the relative size of and the dispersion of shares owned by the other stockholders, and the contractual arrangements between the Company and other investors, potential voting interests and the written agreement between stockholders, the management concluded that the Company has a sufficiently dominant voting interest to direct the relevant activities of the entity and to have control over the governance of the entity and therefore the Company has control over these entities.

## 5. APPLICATION OF NEW AND AMENDED INTERNATIONAL FINANCIAL REPORTING STANDARDS

### Amendments to IFRSs and the New Interpretation That Are Mandatorily Effective for the Current Year

The Company has applied the amendments to IAS 28 included in the Annual Improvements to IFRSs 2014-2016 Cycle, Amendments to IFRS 2: Classification and Measurement of Share-based Payment Transactions, IFRS 9: Financial Instruments and its related amendments, IFRS 15: Revenue from Contracts with Customers and its related amendments, Amendments to IAS 40: Transfers of Investment Property, and IFRIC 22: Foreign Currency Transactions and Advance Consideration for the first time in 2018. Except for the following, the application of these new standards and amendments has had no impact on the disclosures or amounts recognized in the Company's consolidated financial statements.

#### a. IFRS 9 “Financial Instruments” and related amendments

IFRS 9 supersedes IAS 39 “Financial Instruments: Recognition and Measurement”, with consequential amendments to IFRS 7 “Financial Instruments: Disclosures” and other standards. IFRS 9 sets out the requirements for classification, measurement and impairment of financial assets and hedge accounting. Refer to Note 3 for information relating to the relevant accounting policies.

The requirements for classification, measurement and impairment of financial assets have been applied retrospectively on January 1, 2018, and the requirements for hedge accounting have been applied prospectively. IFRS 9 is not applicable to items that have already been derecognized on or before December 31, 2017.

#### Classification, measurement and impairment of financial assets and liabilities

On the basis of the facts and circumstances that existed on January 1, 2018, the Company performed an assessment of the classifications of financial assets and liabilities and elected not to restate the comparative figures.

The following table shows the original measurement categories and carrying amounts under IAS 39 and the new measurement categories and carrying amounts under IFRS 9 for each class of the Company's financial assets and financial liabilities as of January 1, 2018.

	Measurement Category		Carrying Amount		Note
	IAS 39	IFRS 9	IAS 39	IFRS 9	
			NT\$	NT\$	
(In Millions)					
<u>Financial Assets</u>

Add: reclassification from Hedging derivative instrument (IAS 39)	-	(1)	-	(1)	-	-	-	3)
	-	(1)	-	(1)	-	-	-	
Total	<u>\$ (1)</u>	<u>\$ 35,008</u>	<u>\$ 1,842</u>	<u>\$ 36,849</u>	<u>\$ 1,522</u>	<u>\$ 321</u>	<u>\$ (1)</u>	

- 1) Cash and cash equivalents, trade notes and accounts receivable, receivables from related parties, other current monetary assets and refundable deposit that were classified as loans and receivables under IAS 39 are now classified as financial assets measured at amortized cost with assessment of expected credit loss.
- 2) The Company elected to reclassify equity securities originally classified as available-for-sale under IAS 39 to FVTPL and designated at FVOCI in accordance with IFRS 9. As a result, the related other equity - unrealized gain or loss on available-for-sale financial assets of \$6 million and \$556 million were reclassified to retained earnings and to other equity - unrealized gain or loss on financial assets at FVOCI, respectively.

Equity investments in non-listed stocks previously carried at cost under IAS 39 are designated as FVOCI and remeasured at fair values. As a result, financial assets at FVOCI and other equity - unrealized gain or loss on financial assets at FVOCI were increased by \$1,842 million and \$1,843 million, respectively, and noncontrolling interests was decreased by \$1 million. Some investments that previously classified as available-for-sale and measured at cost under IAS 39 were classified mandatorily as FVTPL under IFRS 9 as the contractual cash flows are not solely payments of principal and interest on the principal outstanding and such investments are not equity instruments.

The Company recognized impairment loss on certain investments in equity securities previously classified as available-for-sale and measured at cost and the loss was accumulated in retained earnings under IAS 39. Since those investments were designated as financial assets measured at FVOCI under IFRS 9 and no impairment assessment is required, an adjustment was made that resulted in a decrease of \$1,516 million in other equity - unrealized gain or loss on financial assets at FVOCI and an increase of the \$1,516 million in retained earnings on January 1, 2018.

- 3) Upon the application of IFRS 9, all derivative and non-derivative financial assets and financial liabilities which were designated as hedging instruments are presented as hedging financial assets and hedging financial liabilities for starting from January 1, 2018.

As the Company expects there is no tax obligation upon the disposal of the available-for-sale financial assets, the deferred income tax liabilities was decreased by \$1 million, unrealized gain or loss on available-for-sale financial assets was increased by \$4 million and noncontrolling interests was decreased by of \$3 million, respectively.

b. IFRS 15 “Revenue from Contracts with Customers” and related amendments

IFRS 15 establishes principles for recognizing revenue that apply to all contracts with customers, and supersedes IAS 18 “Revenue”, IAS 11 “Construction Contracts” and a number of revenue-related interpretations. Please refer to Note 3 for related accounting policies.

When applying IFRS 15 and related amendments, the Company allocates the transaction price to each performance obligation identified in the contract on a relative stand-alone selling price basis.

Where the Company enters into transactions which involve both the provision of telecommunications service bundled with products such as handsets, total consideration received from products and telecommunications service in these arrangements is allocated based on each performance obligation’s relative stand-alone selling price. The amount of sales revenue recognized for products is no longer limited to the amount paid by the customer for the products. This does not change the total revenue recognized, but changes the timing of revenue recognition. The Company may recognize more revenue at the beginning of the contract period (i.e., at the time of sale of products), and revenue recognized for telecommunications service in the subsequent contract periods will decrease.

Incremental cost of obtaining contracts is recognized as an asset to the extent the Company expects to recover those costs. Such asset is amortized on a basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Before the application of IFRS 15, the relevant expenditures were recognized as expenses.

IFRS 15 and its related amendments require that when another party is involved in providing goods or services to a customer, the Company is a principal if it controls the specified good or service before that good or service is transferred to a customer. Before the application of IFRS 15, the Company determined whether it is a principal or an agent based on its exposure to the significant risks and rewards associated with the sale of goods or the rendering of services.

Under IFRS 15, the net effect of revenue recognizes, consideration received and receivable is recognized as a contract asset or a contract liability. Before the application of IFRS 15, receivable was recognized or advance receipts and deferred revenue was reduced when revenue was recognized for the contract under IAS 18.

Under IFRS 15, the Company recognized a trade-in liability (other current liabilities) and a right to recover a product (other current assets) when recognizing revenue for the sale with a trade-in right. Before the application of IFRS 15, trade-in right provisions and inventories were recognized when recognizing revenue.

The Company elected to retrospectively apply IFRS 15 to contracts that were not completed on January 1, 2018 and recognized the cumulative effect of the change in the retained earnings on January 1, 2018.

## New and Amended IFRSs in Issue But Not Yet Effective

The Company has not applied the following new and amended IFRSs that have been issued but are not yet effective.

<b>New or Amended Standards and Interpretations</b>		<b>Effective Date Issued by IASB (Note 1)</b>
Amendments to IFRSs	Annual Improvements to IFRSs 2015-2017 Cycle	January 1, 2019
Amendments to IFRS 9	Prepayment Features with Negative Compensation	January 1, 2019
IFRS 16	Leases	January 1, 2019
Amendments to IFRS 3	Definition of a Business	January 1, 2020 (Note 2)
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined by IASB
Amendments to IAS 19	Plan Amendment, Curtailment or Settlement	January 1, 2019 (Note 3)
Amendments to IAS 28	Long-term Interests in Associates and Joint Ventures	January 1, 2019
Amendments to IAS 1 and IAS 8	Definition of Materiality	January 1, 2020 (Note 4)
IFRIC 23	Uncertainty Over Income Tax Treatments	January 1, 2019

Note 1: The aforementioned new or amended standards or interpretations are effective after fiscal year beginning on or after the effective dates, unless specified otherwise.

Note 2: The Company shall apply these amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020 and to asset acquisitions that occur on or after the beginning of that period.

Note 3: The Company shall apply the amendments to pension plan amendments, curtailments or settlements occurring on or after January 1, 2019.

Note 4: The Company shall apply these amendments prospectively in annual periods beginning on or after January 1, 2020.

Except for the following items, the Company believes the adoption of the aforementioned new and amended IFRSs will not have material impact on the Company's consolidated financial statements.

a. IFRS 16 "Leases"

IFRS 16 sets out the accounting standards for identifying leases and accounting treatments for lessors and lessees. It will supersede IAS 17, IFRIC 4 - Determining Whether an Arrangement Contains a Lease and a number of related interpretations.

Upon the initial application of IFRS 16, the Company anticipates reassessing whether a contract is, or contains, a lease in accordance with the definition of a lease under IFRS 16. Some contracts currently identified as containing a lease under IAS 17 and IFRIC 4 do not meet the definition of a lease under IFRS 16 and will be accounted for in accordance with other accounting standards because the Company does not have the right to direct the use of the identified assets. Contracts

that are reassessed as leases or containing a lease will be accounted for in accordance with the transitional provisions under IFRS 16.

Upon the initial application of IFRS 16, if the Company is a lessee, it shall recognize right-of-use assets and lease liabilities for all leases on the consolidated balance sheets except for those whose payments under low-value will be recognized as expenses on a straight-line basis. On the consolidated statements of comprehensive income, the Company will present the depreciation expense charged on the right-of-use asset separately from the interest expense accrued on lease liability using the effective interest method. On the consolidated statements of cash flows, cash payments for the principal portion of lease liability will be classified within financing activities; cash payments for interest portion will be classified within operating activities. Before the application of IFRS 16, payments under operating lease contracts are recognized as expenses on a straight-line basis. Prepaid lease payments for use rights of leased assets are recognized as prepaid rents. Cash flows for operating leases are classified within operating activities on the statements of cash flows.

The Company will not make any adjustments for leases in which the Company is a lessor and will account for those leases with the application of IFRS 16 starting from January 1, 2019.

The Company anticipates applying IFRS 16 retrospectively with the cumulative effect of the initial application of IFRS 16 recognized in retained earnings on January 1, 2019. Comparative financial information will not be restated.

Lease liabilities will be recognized on January 1, 2019 for leases currently classified as operating leases under IAS 17 and measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate on January 1, 2019. Right-of-use assets will be measured at the present value discounted using the aforementioned incremental borrowing rate as if IFRS 16 had been applied since the commencement date of leases. The Company will apply IAS 36 for assessing impairment of right-of-use assets.

Anticipated impacts on assets, liabilities and equity

(Concluded)

Except for the abovementioned impact, as of the date the consolidated financial statements were authorized for issue, the Company is continuously assessing the possible impact that the application of above standards and interpretations will have on the Company's financial position and operating result, and will disclose the relevant impact when the assessment is completed.

## 6. U.S. DOLLAR AMOUNTS

The Company maintains its accounts and expresses its consolidated financial statements in New Taiwan dollars. For readers' convenience only, U.S. dollar amounts presented in the accompanying consolidated financial statements have been translated from New Taiwan dollars as set forth in the statistical release of the Federal Reserve Board of the United States as of December 31, 2018, which was NT\$30.61 to US\$1.00. The convenience translations should not be construed as representations that the New Taiwan dollar amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

## 7. CASH AND CASH EQUIVALENTS

	<b>December 31</b>

## 8. FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
<u>Financial assets-noncurrent</u>		
Mandatorily measured at FVTPL		
Non-derivatives		
Non-listed stocks - domestic	\$ -	\$ 293
Non-listed stocks - foreign	-	224
	<u>          -</u>	<u>          224</u>
Forward exchange contracts	\$ -	\$ 517
	<u>          -</u>	<u>          517</u>
<u>Financial liabilities-current</u>		
Held for trading		
Derivatives (not designated for hedge)		
Forward exchange contracts	\$ 1	\$ 1
	<u>          1</u>	<u>          1</u>

Some available-for-sale financial assets under IAS 39 were mandatorily reclassified as FVTPL when applying IFRS 9.

Outstanding forward exchange contracts not designated for hedge as of balance sheet dates were as follows:

	<b>Currency</b>	<b>Maturity Period</b>	<b>Contract Amount (In Millions)</b>
<u>December 31, 2017</u>			
Forward exchange contracts - buy	EUR/NT\$	2018.03-06	EUR2/NT\$69
Forward exchange contracts - buy	US\$/NT\$	2018.01	US\$4/NT\$125
<u>December 31, 2018</u>			
Forward exchange contracts - buy	EUR/NT\$	2019.03-06	EUR5/NT\$193
Forward exchange contracts - buy	US\$/NT\$	2019.01	US\$2/NT\$62

The Company entered into the above forward exchange contracts to manage its exposure to foreign currency risk due to fluctuations in exchange rates. However, the aforementioned derivatives did not meet the criteria for hedge accounting.

**9. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME - NONCURRENT – 2018**

	<b>December 31, 2018</b>
	<u>NT\$</u>
	<b>(In Millions)</b>
Domestic investments	
Listed stocks	\$ 2,900
Non-listed stocks	3,901
Foreign investments	
Non-listed stocks	<u>132</u>
	<u>\$ 6,933</u>

The Company holds the above foreign and domestic stocks for medium to long-term strategic purposes and expects to profit from long-term investment. Accordingly, the management elected to designate these investments in equity instruments at FVOCI as they believe that recognizing short-term fair value fluctuations of these investments in profit or loss is not consistent with the Company's strategy of holding these investments for long-term purposes. These investments in equity instruments were classified as available-for-sale financial assets under IAS 39. Refer to Notes 5 and 10 for information relating to their reclassification and comparative information for 2017.

The Company recognized dividend income of \$396 million for the year ended December 31, 2018 from those investments still held on December 31, 2018.

**10. AVAILABLE-FOR-SALE FINANCIAL ASSETS - NONCURRENT – 2017**

	<b>December 31, 2017</b>
	<u>NT\$</u>
	<b>(In Millions)</b>
Equity securities	
Domestic listed stocks	\$ 3,125
Domestic non-listed stocks	2,332
Foreign non-listed stocks	<u>294</u>
	<u>\$ 5,751</u>

Chunghwa evaluated and concluded its listed available-for-sale financial assets were impaired and recorded an impairment loss of \$577 million for the year ended December 31, 2016. The Company evaluated and concluded that there was no indication that its listed available-for-sale financial assets were impaired; therefore, no impairment loss was recognized for the year ended December 31, 2017.

The fair values of the above non-listed stocks investments cannot be reliably measured due to the range of reasonable fair value estimates was so significant, the above non-listed stocks investments owned by the Company were carried at costs less any impairment losses at the balance sheet dates.

The Company invested \$300 million to invest Taiwan Capital Buffalo Fund Co., Ltd. in December 2017 and owns 12.9% equity shares of Taiwan Capital Buffalo Fund Co., Ltd.. Taiwan Capital Buffalo Fund Co., Ltd. engaged mainly in investment business.

The Company disposed non-listed available-for-sale financial assets with carrying amounts of \$9 million and \$5 million for the years ended 2016 and 2017, respectively, and recognized the gains (losses) from the disposal of \$1 million and \$3 million for the years ended December 31, 2016 and 2017, respectively.

The Company evaluated and concluded that there was no indication that non-listed available-for-sale financial assets were impaired; therefore, no impairment loss was recognized for the years ended December 31, 2016 and 2017.

#### 11. TRADE NOTES AND ACCOUNTS RECEIVABLE, NET

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Trade notes and accounts receivable	\$ 34,058	\$ 32,678
Less: Loss allowance	<u>(2,117)</u>	<u>(2,602)</u>
	<u>\$ 31,941</u>	<u>\$ 30,076</u>

#### Prior to 2018

The average credit terms range from 30 to 90 days. In determining the recoverability of trade notes and accounts receivable, the Company considers significant change in the credit quality of the trade notes and accounts receivable from the date credit was initially granted up to the end of the reporting period. In general, with few exceptional cases, it is unlikely for the notes and accounts receivable due longer than 180 days to be collected, therefore the Company recognized 100% allowance of notes and accounts receivable overdue longer than 180 days. For the notes and accounts receivable less than 180 days, the allowance for doubtful accounts was estimated based on the Company's historical recovery experience.

The Company serves a large consumer base; therefore, the concentration of credit risk is limited.

The aging analysis for trade notes and accounts receivable as of balance sheet dates was as follows:

	<b>December 31,</b>
	<b>2017</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
Non-overdue	\$ 30,032
Less than 30 days	1,280
31-60 days	485
61-90 days	278
91-120 days	253
121-180 days	122
More than 181 days	<u>1,608</u>
	<u>\$ 34,058</u>

The above aging analysis was based on days overdue.

At the balance sheet dates, the receivables that were past due but not impaired were considered recoverable by the management of the Company. The aging of these receivables as of balance sheet dates was as follows:

	<b>December 31, 2017</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
Less than 30 days	\$ 328
31-60 days	36
61-90 days	7
91-120 days	70
121-180 days	1
More than 181 days	<u>7</u>
	<u>\$ 449</u>

The above aging analysis was based on days overdue.

Movements of the allowance for doubtful accounts were as follows:

Balance on December 31, 2017	<u>\$ 1,325</u>	<u>\$ 792</u>	<u>\$ 2,117</u>

## 2018

The average credit terms range from 30 to 90 days.

The Company serves a large consumer base for telecommunications business; therefore, the concentration of credit risk is limited. When having transactions with customers, the Company considers the record of arrears in the past. In addition, the Company may also collect some telecommunication charges in advance to reduce the payment arrears in subsequent periods.

The Company adopted a policy of dealing with counterparties with certain credit ratings for project business and to obtain collateral where necessary to mitigate the risk of loss arising from default. Credit rating information is provided by independent rating agencies where available and, if such credit rating information is not available, the Company uses other publicly available financial information and its own historical transaction experience to rate its major customers. The Company continues to monitor the credit exposure and credit ratings of its counterparties and spread the credit risk amongst qualified counterparties.

In order to mitigate credit risk, the management of the Company has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure the recoverability of receivables. In addition, the Company reviews the recoverable amount of receivables at balance sheet dates to ensure that adequate allowance is provided for possible irrecoverable amounts. In this regard, the management believes the Company's credit risk could be reasonably reduced.

The Company applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of lifetime expected loss provision for receivables. The expected credit losses on receivables are estimated using a provision matrix by reference to past default experience of the customers and an analysis of the customers' current financial positions, as well as the forward-looking indicators such as macroeconomic business indicator.

When there are evidences indicating that the counterparty is in evasion, bankruptcy, deregistration of its company or the accounts receivable are over two years past due and the recoverable amount cannot be reasonable estimated, the Company writes off the trade notes and accounts receivable. For accounts receivable that have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

Except for receivables arising from telecommunications business and project business, the Company's remaining accounts receivable are limited. Therefore, only Chunghwa's provision matrix arising from telecommunications business and project business is disclosed below.

#### December 31, 2018

	<u>Not Past Due</u>	<u>Past Due Less than 30 Days</u>	<u>Pass Due 31 to 60 Days</u>	<u>Pass Due 61 to 90 Days</u>	<u>Pass Due 91 to 120 Days</u>	<u>Pass Due 121 to 180 Days</u>	<u>Pass Due over 181 Days</u>	<u>Total</u>

Note a: Please refer to Note 44 for the information of disaggregation of telecommunications service revenue. The expected credit loss rate applicable to different business revenue varies so as to reflect the risk level indicating by factors like historical experience.

Note b: The project business has different loss types according to the customer types. The expected credit loss rate listed above is for general customers. When customer is the government or its affiliates, it is expected that no credit loss will occur. For those who had bounced or exchanged checks as well as those accounts receivable were overdue more than six months that are classified as high risk customers, the expected credit loss of high risk customers is at least 50%, and the rate is increased when the overdue days increases.

Movements of the allowance for doubtful accounts were as follows:

	<b>Year Ended December 31, 2018</b>
	<b>NT\$</b>

b. Equity transactions with noncontrolling interests

CHI disposed of some shares of CHPT in March 2016, and did not participate in the capital increase of CHPT in March 2016 and September 2017. Additionally, CHI disposed some shares of CHPT from April to August 2018. Therefore, the Company's ownership interest in CHPT decreased to 34.25% as of December 31, 2018. See Note 34(e) for details.

Chunghwa and CHI disposed some shares of CHIEF in June 2017 and May 2018 before CHIEF traded its shares on the emerging stock market and the General Stock Market of the Taipei Exchange according to the local requirements. In addition, Chunghwa and CHI did not participate in the capital increase of CHIEF in June 2018. Furthermore, CHIEF issued new shares in March and November 2018 as its employees exercised their options. Therefore, the Company's equity ownership interest in CHIEF decreased to 60.23% as of December 31, 2018. See Note 34(c)(d) for details.

SENAO transferred its treasury stock to employees in June and November 2017, and June 2018. The Company's ownership interest in SENAO decreased to 28.93% and 28.18% as of December 31, 2017 and 2018, respectively. See Note 34(b) for details.

SENAO subscribed for all the shares in the capital increase of Youth in December 2018. Therefore, the Company's equity ownership interest in Youth increased from 89% to 93%.

The above transactions were accounted for as equity transactions since the Company did not cease to have control over these subsidiaries.

The detailed information of the equity transactions for the years ended December 31, 2016, 2017 and 2018 was as follows:

Chunghwa participated in the capital increase of ADT by investing \$30 million in December 2016. The Company owns 14% equity shares of ADT. As the Company remains the seat in the Board of Directors of ADT and considers the relative size of ownership interest and the dispersion of shares owned by the other stockholders, the Company remains significant influence over ADT. In June 2018, the stockholders of ADT approved to dissolve. ADT engages mainly in the development of mobile payments and information processing service.

The Company did not participate in the capital increase of UUPON in April 2017 and the ownership interest of UUPON decreased to 22%. UUPON engages mainly in information technology service and general advertisement service.

HopeTech returned the proceeds of \$19 million as a result of capital reduction in January 2018. The Company received \$3 million by disposing all shares of HopeTech in June 2018 and recognized disposal loss of \$0.1 million. HopeTech engages mainly in sale of information and communication technologies products.

The Company invested 50% equity shares of Chunghwa PChome Fund I Co., Ltd. ("CPFI") in October 2018. The Company has only two out of five seats of the Board of Directors of CPFI, and has no control but significant influence over CPFI. Therefore, the Company recognized CPFI as investment in associate. CPFI engages mainly in investment business.

The Company invested 49% equity shares of Cornerstone Ventures Co., Ltd. ("CVC") in October 2018. The Company has only two out of five seats of the Board of Directors of CVC, and has no control but significant influence over CVC. Therefore, the Company recognized CVC as investment in associate. CVC engages mainly in investment business.

The Company's share of profit and other comprehensive income (loss) of associates was recognized based on the audited financial statements.

b. Investments in joint ventures

In March 2016, the stockholders of HDD approved that HDD should start its dissolution from March 31, 2016. Chunghwa received the proceeds from the liquidation in September 2016 and recognized the disposal loss of \$0.4 million. HDD completed its liquidation in March 2017.

In December 2016, the stockholders of CBO approved that CBO should start its dissolution from December 31, 2016. CBO completed its liquidation in December 2017.

None of the above joint ventures is considered individually material to the Company. Summarized financial information of joint ventures that were not material to the Company was as follows:

	<b>Year Ended December 31</b>		
	<b>2016</b>	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>		
The Company's share of loss	\$ (42)	\$ (1)	\$ -
The Company's share of other comprehensive income	<u>-</u>	<u>-</u>	<u>-</u>
The Company's share of total comprehensive loss	<u>\$ (42)</u>	<u>\$ (1)</u>	<u>\$ -</u>

The Company's share of loss of joint ventures was recorded based on the audited financial statements.

The Company determined that some telecommunications equipment was impaired in 2016 due to the expiration of 2G license in June 2017 which will lead to the termination of the related service. The Company evaluated and concluded the recoverable amount determined on the basis of value in use of aforementioned telecommunications equipment was lower than the carrying value, and recognized impairment losses of 596 million for the year ended December 31, 2016. In addition, the Company evaluated and concluded the recoverable amount of partial computer and miscellaneous equipment was nil and recognized impairment losses of 0.4 million for the year ended December 31, 2016. The impairment loss was included in other income and expenses in the statements of comprehensive income.

There was no indication that property, plant and equipment was impaired so the Company did not recognize any impairment loss for the years ended December 31, 2017 and 2018.

Depreciation expense is computed using the straight-line method over the following estimated service lives:

Land improvements	8-30 years
Buildings	
Main buildings	35-60 years
Other building facilities	3-20 years
Computer equipment	2-8 years
Telecommunications equipment	
Telecommunication circuits	2-30 years
Telecommunication machinery and antennas equipment	2-30 years
Transportation equipment	3-10 years
Miscellaneous equipment	
Leasehold improvements	1-6 years
Mechanical and air conditioner equipment	3-16 years
Others	1-10 years

	(Concluded)

Depreciation expense is computed using the straight-line method over the following estimated service lives:

Land improvements	8-30 years
Buildings	
Main buildings	35-60 years
Other building facilities	4-10 years

After the evaluation of land and buildings, the Company concluded the recoverable amount which represented the fair value less costs to sell of some land and buildings was higher than the carrying amount in 2016, 2017 and 2018. Therefore, the Company recognized reversals of impairment loss of \$148 million, \$11 million and \$19 million for the years ended December 31, 2016, 2017 and 2018, respectively, and the amounts were recognized only to the extent of impairment losses that had been recognized in prior years. The reversal of impairment loss was included in other income and expenses in the statements of comprehensive income.

The fair values of the Company's investment properties as of December 31, 2017 and 2018 were determined by Level 3 fair value measurements inputs based on the appraisal reports conducted by independent appraisers. Those appraisal reports are based on the comparison approach, income approach or cost approach. Key assumptions and the fair values were as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Fair value	<u>\$ 17,728</u>	<u>\$ 18,515</u>

(Concluded)

For long-term business development, Chunghwa submitted an application to NCC for 4G mobile broadband license in 1.8 and 2.1 GHz frequency bands and obtained certain spectrums. Chunghwa paid the 4G concession fee amounting to \$10,935 million in November 2017.

The concessions are granted and issued by the NCC. The concession fees are amortized using the straight-line method from the date operations commence through the date the license expires. The carrying amount of 3G concession fee was fully amortized in December 2018, and 4G concession fees will be fully amortized by December 2030 and December 2033.

The computer software is amortized using the straight-line method over the estimated useful lives of 1 to 10 years. Other intangible assets are amortized using the straight-line method over the estimated useful lives of 3 to 20 years. Goodwill is not amortized.

SENAO evaluated the goodwill that arose in the acquisition of Youth and its subsidiaries at the end of each year. SENAO determined the smallest identifiable group of assets that generates cash inflows as single cash generating units by business type, and evaluated the recoverable amount of those cash generating units by their value in use. The management of SENAO estimated the cash flow projections based on the financial budgets for the following five years. Discount rates were 14.6%, 14.8% and 13.7% as of December 31 2016, 2017 and 2018, respectively and were used to calculate the recoverable amount of related cash generating units by discounting aforementioned cash flows.

SENAO concluded that there was no impairment loss recognized for the years ended December 31, 2016 and 2018. Furthermore, SENAO concluded the recoverable amount of the goodwill was lower than the carrying value and recognized impairment loss of \$9 million for the year ended December 31, 2017.

SENAO evaluated and determined that the recoverable amount of certain licensed contract was nil and recognized the impairment loss of \$51 million for the year ended December 31, 2018. The recoverable amount was based on the value in use.

The aforementioned impairment loss was included in other income and expenses in the statements of comprehensive income.

## 20. OTHER ASSETS

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Spare parts	\$ 2,059	\$ 2,422

Others	<u>2,800</u>	<u>2,342</u>
	<u>\$ 7,719</u>	<u>\$ 7,756</u>
Current		
Spare parts	\$ 2,059	\$ 2,422
Others	<u>124</u>	<u>154</u>
	<u>\$ 2,183</u>	<u>\$ 2,576</u>
Noncurrent		
Refundable deposits	\$ 1,860	\$ 1,992
Other financial assets	1,000	1,000
Others	<u>2,676</u>	<u>2,188</u>
	<u>\$ 5,536</u>	<u>\$ 5,180</u>

Other financial assets - noncurrent was Piping Fund. As part of the government's effort to upgrade the existing telecommunications infrastructure, Chunghwa and other public utility companies were required by the ROC government to contribute to a Piping Fund administered by the Taipei City Government. This fund was used to finance various telecommunications infrastructure projects. Net assets of this fund will be returned proportionately after the project is completed.

## 21. HEDGING DERIVATIVE FINANCIAL INSTRUMENTS

Chunghwa's hedge strategy is to enter forward exchange contracts - buy to avoid its foreign currency exposure to certain foreign currency denominated equipment payments in the following six months. In addition, Chunghwa's management considers the market condition to determine the hedge ratio, and enters into forward exchange contracts with the banks to avoid the foreign currency risk.

Chunghwa signed equipment purchase contracts with suppliers, and entered into forward exchange contracts to avoid foreign currency risk exposure to Euro-denominated purchase commitments. Those forward exchange contracts were designated as cash flow hedges. When forecast purchases actually take place, basis adjustments are made to the initial carrying amounts of hedged items.

For the hedges of highly probable forecast sales and purchases, as the critical terms (i.e. the notional amount, life and underlying) of the forward foreign exchange contracts and their corresponding hedged items are the same, the Company performs a qualitative assessment of effectiveness and it is expected that the value of the forward contracts and the value of the corresponding hedged items will systematically change in opposite direction in response to movements in the underlying exchange rates.

The main source of hedge ineffectiveness in these hedging relationships is the effect of credit risks of the Company and the counterparty on the fair value of the forward exchange contracts. Such credit risks do not impact the fair value of the hedged item attributable to changes in foreign exchange rates. No other sources of ineffectiveness emerged from these hedging relationships.

### Prior to 2018

The hedging instrument was showed as follows:

	<b>December 31, 2017</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
<u>Hedging derivative financial assets</u>	
Cash flow hedge - forward exchange contracts	\$ _____ -
<u>Hedging derivative financial liabilities</u>	
Cash flow hedge - forward exchange contracts	\$ _____ 1

For the years ended December 31, 2016 and 2017, losses arising from changes in fair value of the hedged items recognized in other comprehensive income were \$1 million and \$1 million, respectively. Upon the completion of the purchase transaction, the amount deferred and recognized in equity initially will be reclassified into equipment as its carrying value.

As of December 31, 2016 and 2017, Chunghwa expected part of the equipment purchase transactions would not occur and reclassified the related gains of \$1 million and \$2 million, respectively, from equity to profit or loss which arising from the forward exchange contracts of the aforementioned transactions for the years ended December 31, 2016 and 2017.

The outstanding forward exchange contracts at the balance sheet dates were as follows:

	<b>Currency</b>	<b>Maturity Period</b>	<b>Contract Amount (Millions)</b>
<u>December 31, 2017</u>			
Forward exchange contracts - buy	EUR/NT\$	2018.03-06	EUR4/NT\$142

Loss (gain) arising from the hedging derivative financial instruments that have been reclassified from equity to initial cost of the property, plant and equipment were as follows:

	<b>Year Ended December 31</b>	
	<b>2016</b>	<b>2017</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Construction in progress and equipment to be accepted	\$ (15)	\$ (2)

### 2018

	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Secured loans (Note 41)	<u>\$ 1,600</u>	<u>\$ 1,600</u>

The annual interest rates of loans were as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	Secured loans	0.91%

LED obtained a secured loan from Chang Hwa Bank in September 2010. Interest is paid monthly. \$300 million and \$1,350 million were originally due in December 2014 and September 2015, respectively. In October 2014, the bank borrowing mentioned above was extended to September 2018 for one time repayment. LED made an early repayment of \$50 million in April 2015. LED entered into a contract with Chang Hwa Bank to renew the contract upon the maturity of the aforementioned contract in December 2017 and the due date of the renew contract is extended to September 2021.

## 24. TRADE NOTES AND ACCOUNTS PAYABLE

(Concluded)

- a. The provision for warranties claims represents the present value of the management's best estimate of the future outflow of economic benefits that will be required under the Company's obligation for warranties in sales agreements. The estimate has been made based on the historical warranty experience.
- b. The provision for employee benefits represents vested long-term service compensation accrued.
- c. The provision for trade-in right in 2016 and 2017 was based on the management's judgments to estimate the trade-in right of products exercised by customers in the future. The provision was recognized as a reduction of revenue in the period in which the goods are sold.

## 27. ADVANCE RECEIPTS - 2017

Advance receipts are mainly from advance telecommunication charges. For the obligations to transfer goods or services to customers for which the Company has received consideration from, they were retrospectively reclassified as contract liabilities starting from 2018.

## 28. RETIREMENT BENEFIT PLANS

- a. Defined contribution plans

The pension plan under the Labor Pension Act of ROC (the "LPA") is considered as a defined contribution plan. Based on the LPA, Chunghwa and its domestic subsidiaries make monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages. Its foreign subsidiaries would make monthly contributions based on the local pension requirements.

- b. Defined benefit plans

Chunghwa completed its privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the "Privatization Fund") under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa was requested to administer the distributions to employees for pension obligations including service clearance

payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization and recognized in other current monetary assets.

Chunghwa and its subsidiaries SENAQ, CHIEF, CHSI, and SHE with the pension mechanism under the Labor Standards Law are considered as defined benefit plans. These pension plans provide benefits based on an employee's length of service and average six-month salary prior to retirement. Chunghwa and its subsidiaries contribute an amount no more than 15% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan. The plan assets are held in a commingled fund which is operated and managed by the government's designated authorities; as such, the Company does not have any right to intervene in the investments of the funds. According to the Article 56 of the Labor Standards Law in the ROC revised in February 2015, entities are required to contribute the difference in one appropriation to the Funds before the end of next March when the balance of the Funds is insufficient to pay employees who will meet the retirement eligibility criteria within next year.

The amounts included in the consolidated balance sheets arising from the Company's obligation in respect of its defined benefit plans were as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>

Benefits paid directly by the Company	<u>(192)</u>	<u>-</u>	<u>(192)</u>
Balance on December 31, 2018	<u>\$ 41,397</u>	<u>\$ 39,027</u>	<u>\$ 2,370</u>

(Concluded)

Relevant pension costs recognized in profit and loss for defined benefit plans were as follows:

	<b>Year Ended December 31</b>		
	<b>2016</b>	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>		
Operating costs	\$ 1,732	\$ 1,734	\$ 1,796
Marketing expenses	838	847	886
General and administrative expenses	155	156	164
Research and development expenses	<u>97</u>	<u>97</u>	<u>107</u>
	<u>\$ 2,822</u>	<u>\$ 2,834</u>	<u>\$ 2,953</u>

The Company is exposed to following risks for the defined benefits plans under the Labor Standards Law:

a. Investment risk

Under the Labor Standards Law, the rate of return on assets shall not be lower than the average interest rate on a two-year time deposit published by the local banks and the government is responsible for any shortfall in the event that the rate of return is less than the required rate of return. The plan assets are held in a commingled fund mainly invested in foreign and domestic equity and debt securities and bank deposits which is operated and managed by the government's designated authorities; as such, the Company does not have any right to intervene in the investments of the funds.

b. Interest rate risk

The decline in government bond interest rate will increase the present value of the obligation on the defined benefit plan, while the return on plan assets will increase. The net effect on the present value of the obligation on defined benefit plan is partially offset by the return on plan assets.

c. Salary risk

The calculation of the present value of defined benefit obligation is referred to the plan participants' future salary. Hence, the increase in plan participants' salary will increase the present value of the defined benefit obligation.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation were carried out by the independent actuary.

The principal assumptions used for the purpose of the actuarial valuations were as follows:

	<b>Measurement Date</b>	
	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
Discount rates	1.50%	1.00%
Expected rates of salary increase	1.20%-2.00%	1.20%-2.00%

If reasonably possible changes of the respective significant actuarial assumptions occur at the end of reporting periods, while holding all other assumptions constant, the present value of the defined benefit obligation would increase (decrease) as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Discount rates		
0.5% increase	<u>\$ (1,232)</u>	<u>\$ (1,258)</u>
0.5% decrease	<u>\$ 1,310</u>	<u>\$ 1,338</u>
Expected rates of salary increase		
0.5% increase	<u>\$ 1,398</u>	<u>\$ 1,430</u>
0.5% decrease	<u>\$ (1,326)</u>	<u>\$ (1,356)</u>

The sensitivity analysis presented above may not be representative of the actual change in the present value of the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the consolidated balance sheets.

There is no change in the methods and assumptions used in preparing the sensitivity analysis from the previous period.

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
The expected contributions to the plan for the next year	<u>\$ 4,393</u>	<u>\$ 2,237</u>
The average duration of the defined benefit obligation	6.8-12.5 years	6.5-12.1 years

The Company's maturity analysis of the undiscounted benefit payments as of December 31, 2018 was as follows:

<b>Year</b>	<b>Amount</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
2019	\$ 2,736
2020	6,089
2021	10,454
2022	12,566
2023 and thereafter	<u>46,894</u>
	<u>\$ 78,739</u>

## 29. EQUITY

### a. Share capital

#### 1) Common stocks

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>

Number of issued and paid shares	<u>7,757</u>	<u>7,757</u>
Issued and outstanding shares	<u>\$ 77,574</u>	<u>\$ 77,574</u>

The issued common stocks of a par value at \$10 per share entitled the right to vote and receive dividends.

#### 2) Global depositary receipts

The MOTC and some stockholders sold some common stocks of Chunghwa in an international offering of securities in the form of American Depositary Shares (“ADS”) (one ADS represents 10 common stocks) in July 2003, August 2005, and September 2006. The ADSs were traded on the New York Stock Exchange since July 17, 2003. As of December 31, 2018, the outstanding ADSs were 234 million common stocks, which equaled 23 million units and represented 3.02% of Chunghwa’s total outstanding common stocks.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders are entitled to, through deposit agents:

- a) Exercise their voting rights,
- b) Sell their ADSs, and
- c) Receive dividends declared and subscribe to the issuance of new shares.

### b. Additional paid-in capital

The adjustments of additional paid-in capital for the years ended December 31, 2016, 2017 and 2018 were as follows:

	Share Premium	Movements of Additional Paid-in Capital for Associates and Joint Ventures Accounted for Using Equity Method	Movements of Additional Paid-in Capital Arising from Changes in Equities of Subsidiaries	Difference between Consideration Received and Carrying Amount of the Subsidiaries’ Net Assets upon Disposal	Donated Capital	Stockholders’ Contribution Due to Privatization	Total

(Concluded)

Additional paid-in capital from share premium, donated capital and the difference between consideration received and the carrying amount of the subsidiaries' net assets upon disposal may be utilized to offset deficits. Furthermore, when Chunghwa has no deficit, it may be distributed in cash or capitalized, which however is limited to a certain percentage of Chunghwa's paid-in capital except the additional paid-in capital arising from unclaimed dividend can only be utilized to offset deficits.

The additional paid-in capital from movements of paid-in capital arising from changes in equities of subsidiaries may only be utilized to offset deficits.

Among additional paid-in capital from movements of investments in associates and joint ventures accounted for using equity method, the portion arising from the difference between consideration received and the carrying amount of the subsidiaries' net assets upon disposal may be utilized to offset deficits; furthermore, when the Company has no deficit, it may be distributed in cash or capitalized. However, other additional paid-in capital recognized in proportion of share ownership may only be utilized to offset deficits.

c. Retained earnings and dividends policy

In accordance with the Chunghwa's Articles of Incorporation, Chunghwa must pay all outstanding taxes, offset deficits in prior years and set aside a legal reserve equal to 10% of its net income before distributing a dividend or making any other distribution to stockholders, except when the accumulated amount of such legal reserve equals to Chunghwa's total issued capital, and depending on its business needs or requirements, may also set aside or reverse special reserves. No less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed as stockholders' dividends, of which cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividend to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common stocks.

Special reserve was appropriated in accordance with the relevant laws and regulations or as requested by local authority. Pursuant to existing regulations, Chunghwa is required to set aside additional special reserve equivalent to debit balances under stockholder's equity. For subsequent decrease in the deduction amount to stockholder's equity, the decreased amount could be reversed from the special reserve to retained earnings.

The appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when the legal reserve has exceeded 25% of Chunghwa's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of the 2016 and 2017 earnings of Chunghwa approved by the stockholders in their meetings on June 23, 2017 and June 15, 2018 were as follows:

	<u>Appropriation of Earnings</u>		<u>Dividends Per Share</u>	
	<u>For Fiscal Year 2016</u>	<u>For Fiscal Year 2017</u>	<u>For Fiscal Year 2016</u>	<u>For Fiscal Year 2017</u>
	NT\$	NT\$	NT\$	NT\$
	(In Millions)			
Special reserve	\$ 5	\$ (5)		
Cash dividends	38,336	37,205	\$4.9419	\$4.796

The appropriations of earnings for 2018 had been proposed by Chunghwa's Board of Directors on March 19, 2019. The appropriations and dividends per share were as follows:

	<u>For Fiscal Year 2018</u>	
	<u>Appropriation of Earnings</u>	<u>Dividends Per Share</u>
	NT\$	NT\$
	(In Millions)	
Cash dividends	\$ 34,746	\$4.479

The appropriations of earnings for 2018 are subject to the resolution of the stockholders' meeting planned to be held on June 21, 2019.

d. Other equity items

1) Exchange differences arising from the translation of the foreign operations

The exchange differences arising from the translation of the foreign operations from their functional currency to New Taiwan dollars were recognized as exchange differences arising from the translation of the foreign operations in other comprehensive income.

2) Unrealized gain or loss on available-for-sale financial assets

	<b>Unrealized Gain or Loss on AFS Financial Assets</b>

### 30. REVENUE

Prior to 2018

The main source of revenue of the Company includes various telecommunications services in different streams. The information of disaggregation of revenue please refer to Note 44.

2018

	<b>Year Ended December 31, 2018</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
Revenue from contracts with customers	<u>\$214,461</u>
Other revenues	
Rental income	640
Other	<u>382</u>
	<u>1,022</u>
<b>Total</b>	<b><u>\$215,483</u></b>

The information of performance obligations in customer contracts, please refer to Note 3 Summary of Significant Accounting Policies for details.

a. Disaggregation of revenue

For the year ended December 31, 2018

	<b>Domestic Fixed Communi- cations Business</b>	<b>Mobile Communi- cations Business</b>	<b>Internet Business</b>	<b>International Fixed Communi- cations Business</b>	<b>Others</b>	<b>Total</b>
	NT\$	NT\$	NT\$	NT\$	NT\$	NT\$
	(In Millions)					
<u>Main Products and Service Revenues</u>						
Mobile services revenue	\$ -	\$ 63,906	\$ -	\$ -	\$ -	\$ 63,906
Sales of products	1,731	35,702	4	251	3,601	41,289
Local telephone and domestic long distance telephone services revenue	29,996	-	-	-	-	29,996
Broadband access and domestic leased line services revenue	22,453	-	-	-	-	22,453
Data Communications internet services revenue	-	-	21,137	-	-	21,137
International network and leased telephone services revenue	-	-	-	8,724	-	8,724
Others	<u>11,923</u>	<u>1,269</u>	<u>8,509</u>	<u>4,449</u>	<u>806</u>	<u>26,956</u>
	<u>\$ 66,103</u>	<u>\$ 100,877</u>	<u>\$ 29,650</u>	<u>\$ 13,424</u>	<u>\$ 4,407</u>	<u>\$ 214,461</u>

b. Contract balances

	<b>December 31, 2018</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
Trade notes and accounts receivable (Note 11)	<u>\$ 30,076</u>
Contract assets	
Products and service bundling	\$ 7,123
Other	109
Less: Loss allowance	<u>(19)</u>
	<u>\$ 7,213</u>
	(Continued)

	<b>December 31, 2018</b>
	<u>NT\$</u>
	<b>(In Millions)</b>
Current	\$ 4,869
Noncurrent	<u>2,344</u>
	<u>\$ 7,213</u>
Contract liabilities	
Telecommunications business	\$ 8,193
Project business	4,508
Products and service bundling	106
Other	<u>476</u>
	<u>\$ 13,283</u>
Current	\$ 10,688
Noncurrent	<u>2,595</u>
	<u>\$ 13,283</u>
	(Concluded)

The changes in the contract asset and the contract liability balances primarily result from the timing difference between the satisfaction of performance obligations and the payments collected from customers. Significant changes of contract assets and liabilities recognized resulting from product and service bundling were as follows:

	<b>Year Ended December 31, 2018</b>
	<u>NT\$</u>
	<b>(In Millions)</b>
Contract assets	
Net increase of customer contracts	\$ 4,126
Reclassified to trade receivables	<u>(7,532)</u>
	<u>\$ (3,406)</u>
Contract liabilities	
Net increase of customer contracts	\$ 16
Recognized as revenues	<u>(194)</u>
	<u>\$ (178)</u>

The Company applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of lifetime expected loss provision for receivables. Contract assets will be reclassified to trade receivables when the corresponding invoice is billed to the client. Contract assets have substantially the same risk characteristics as the trade receivables of the same types of contracts. Therefore, the Company concluded that the expected loss rates for trade receivables can be applied to the contract assets.

Revenue recognized for the period that was included in the contract liability at the beginning of the period was as follows:

	<b>Year Ended December 31, 2018</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
Telecommunications business	\$ 7,157
Project business	627
Others	<u>324</u>
	<u>\$ 8,108</u>

c. Incremental costs of obtaining contracts

	<b>December 31, 2018</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
Noncurrent	
Incremental costs of obtaining contracts	<u>\$ 1,335</u>

The Company considered the past experience and the default clauses in the telecommunications service contract and believes the commissions and equipment subsidy paid for obtaining contracts are expected to be recoverable; therefore, incremental costs of obtaining contracts are recognized as an asset. Amortization expense of incremental costs of obtaining contracts for the year ended December 31, 2018 was \$1,941 million.

d. Remaining Performance Obligations

As of December 31, 2018, the aggregate amount of transaction price allocated to performance obligations for non-cancellable telecommunications service contracts that are unsatisfied is \$38,909 million. The Company expects to recognize revenue when service is provided over contract terms in the next 36 months, \$24,388 million, \$11,581 million and \$2,940 million for 2019, 2020 and 2021, respectively. The variable consideration collected from customers on nonrecurring basis resulting from exceeded usage from monthly fee and revenue recognized for contracts that the Company has a right to consideration from customers in the amount corresponding directly with the value to the customers of the Company's performance completed to date have been excluded from the disclosure of remaining performance obligations.

As of December 31, 2018, the aggregate amount of transaction price allocated to performance obligations for non-cancellable project business contracts that are unsatisfied is \$20,990 million. The Company recognizes revenues when the project business contract is completed and accepted by customers. The Company expects to recognize such revenue of \$3,656 million, \$12,893 million and \$4,441million in 2019, 2020 and 2021, respectively. Project business contracts whose expected duration are less than a year have been excluded from the aforementioned disclosure.

Chunghwa distributes employees' compensation at the rates from 1.7% to 4.3% and remuneration to directors not higher than 0.17%, respectively, of pre-tax income. As of December 31, 2018, the payables of the employees' compensation and the remuneration to directors were \$1,404 million and \$38 million, respectively. Such amounts have been approved by the Chunghwa's Board of Directors on March 19, 2019 and will be reported to the stockholders in their meeting planned to be held on June 21, 2019.

If there is a change in the proposed amounts after the annual financial statements are authorized for issue, the differences are recorded as a change in accounting estimate.

The compensation to the employees and remuneration to the directors of 2016 and 2017 approved by the Board of Directors on March 7, 2017 and March 13, 2018, respectively, were as follows.

	<b>2016</b>	<b>2017</b>
	<b>Cash</b>	<b>Cash</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Compensation distributed to the employees	\$ 1,702	\$ 1,596
Remuneration paid to the directors	42	41

There was no difference between the initial accrual amounts and the amounts proposed in the Board of Directors in 2017 and 2018 of the aforementioned compensation to employees and the remuneration to directors.

### 32. INCOME TAX

a. Income tax recognized in profit or loss

The major components of income tax expense were as follows:

	<b>Year Ended December 31</b>		
	<b>2016</b>	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>		
Current tax			
Current tax expenses recognized for the year	\$ 6,736	\$ 7,996	\$ 8,271
Income tax on unappropriated earnings	(346)	(60)	(2,070)
Income tax adjustments on prior years	(22)	(2)	7
Others	<u>15</u>	<u>10</u>	<u>8</u>
	<u>6,383</u>	<u>7,944</u>	<u>6,216</u>
Deferred tax			
Deferred tax expense recognized for the year	1,404	(101)	208
Income tax adjustments on prior years	-	6	19
Change in tax rate	<u>-</u>	<u>-</u>	<u>(38)</u>
	<u>1,404</u>	<u>(95)</u>	<u>189</u>
Income tax expense recognized in profit or loss	<u>\$ 7,787</u>	<u>\$ 7,849</u>	<u>\$ 6,405</u>

Reconciliation of accounting profit and income tax expense was as follows:

	<b>Year Ended December 31</b>		
	<b>2016</b>	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>	<b>NT\$</b>
		<b>(In Millions)</b>	
Income before income tax	<u>\$ 49,413</u>	<u>\$ 48,009</u>	<u>\$ 44,986</u>
Income tax expense calculated at the statutory rate (17% in 2016 and 2017, and 20% in 2018)	\$ 8,400	\$ 8,162	\$ 8,997
Nondeductible income and expenses in determining taxable income	5	34	227
Unrecognized deductible temporary differences	(9)	(1)	1
Unrecognized loss carryforwards	12	10	21
Tax-exempt income	(25)	(87)	(580)
Additional income tax under Alternative Minimum Tax Act	-	-	46
Income tax on unappropriated earnings	(346)	(60)	(2,070)
Investment credits	(234)	(212)	(204)
Change in tax rate	-	-	(38)
Effect of different tax rates of group entities operating in other jurisdictions	(8)	(2)	(15)
Income tax adjustments on prior years	(22)	4	26
Others	<u>14</u>	<u>1</u>	<u>(6)</u>
Income tax expense recognized in profit or loss	<u>\$ 7,787</u>	<u>\$ 7,849</u>	<u>\$ 6,405</u>

In 2016 and 2017, the applicable tax rate used above is the corporate tax rate of 17% payable by the entities subject to the Income Tax Act of the Republic of China.

Income Tax Act in the ROC was amended in February 2018 and the corporate income tax rate is adjusted from 17% to 20%. Such amendment is effective from 2018. In addition, the rate of the corporate surtax applicable to 2018 unappropriated earnings is reduced from 10% to 5%. The applicable tax rate used by subsidiaries in China is 25%, and tax rates used by other entities in the Company operating in other jurisdictions are based on the tax laws in those jurisdictions.

g. Income tax examinations

Income tax returns of Chunghwa have been examined by the tax authorities through 2015. Income tax returns of Aval, CHSI, CHPT, HHI, SHE, and CHST have been examined by the tax authorities through 2016. Income tax returns of SENAO, CHIEF, CHI, LED, Unigate, CLPT, SFD, CHYP, CHTSC, ISPOT, Youth, Youyi and SENYOUNG have been examined by the tax authorities through 2017.

### 33. EARNINGS PER SHARE

Net income and weighted average number of common stocks used in the calculation of earnings per share were as follows:

**Net Income**

	<u>Year Ended December 31</u>		
	<u>2016</u> NT\$	<u>2017</u> NT\$	<u>2018</u> NT\$
	(In Millions)		
Net income used to compute the basic earnings per share			
Net income attributable to the parent	\$ 40,485	\$ 38,988	\$ 37,557
Assumed conversion of all dilutive potential common stocks			
Employee stock options, employee compensation of subsidiaries	<u>(1)</u>	<u>-</u>	<u>(6)</u>
Net income used to compute the diluted earnings per share	<u>\$ 40,484</u>	<u>\$ 38,988</u>	<u>\$ 37,551</u>

## Weighted Average Number of Common Stocks

(Millions Shares)

	Year Ended December 31		
	2016	2017	2018
Weighted average number of common stocks used to compute the basic earnings per share	7,757	7,757	7,757
Assumed conversion of all dilutive potential common stocks			
Employee compensation	<u>12</u>	<u>11</u>	<u>9</u>
Weighted average number of common stocks used to compute the diluted earnings per share	<u>7,769</u>	<u>7,768</u>	<u>7,766</u>

Because Chunghwa may settle the employee compensation in shares or cash, Chunghwa shall presume that it will be settled in shares and takes those shares into consideration when calculating the weighted average number of outstanding shares used in the calculation of diluted EPS if the shares have a dilutive effect. The dilutive effect of the shares needs to be considered until the approval of the number of shares to be distributed to employees as compensation in the following year.

### 34. SHARE-BASED PAYMENT ARRANGEMENT

a. SENAO share-based compensation plan (“SENAO Plan”) described as follows:

Effective Date	Grant Date	Stock Options Units (In Thousands)	Exercise Price NT\$
2012.05.28	2013.05.07	10,000	\$66.20 (Original price \$93.00)

Each option is eligible to subscribe for one common share when exercisable. Under the terms of the SENAO Plan, the options are granted at an exercise price equal to the closing price of the SENAO’s common stocks listed on the TWSE on the higher of closing price or par value. The SENAO Plan have exercise price adjustment formula upon the changes in common stocks equity (including cash capital increase, new share issue through capitalization of earnings and additional paid-in capital, merger, spin off and new share issue for Global Depositary Shares, and so on) or distribution of cash dividends. The options of SENAO Plan are valid for six years and the graded vesting schedule for which 50% of option granted will vest two years after the grant date and another two tranches of 25%, each will vest three and four years after the grant date respectively.

The compensation costs of stock options granted on May 7, 2013, were \$13 million and \$4 million for the years ended December 31, 2016 and 2017, respectively. No compensation cost was recognized for the year ended December 31, 2018.

SENAO modified the plan terms of the outstanding stock options in July 2016, the exercise price changed from \$81.40 to \$76.10 per share. The modification did not cause any incremental fair value granted.

SENAO modified the plan terms of the outstanding stock options in July 2017, the exercise price changed from \$76.10 to \$70.70 per share. The modification did not cause any incremental fair value granted.

SENAO modified the plan terms of the outstanding stock options in July 2018, the exercise price changed from \$70.70 to \$66.20 per share. The modification did not cause any incremental fair value granted.

Information about SENAO's outstanding stock options for the years ended December 31, 2016, 2017 and 2018 was as follows:

	<b>Year Ended December 31, 2016</b>	
	<b>Granted on May 7, 2013</b>	
	<b>Number of Options</b>	<b>Weighted- average Exercise Price</b>
	<b>(In Thousands)</b>	<b>NT\$</b>
<u>Employee stock options</u>		
Options outstanding at beginning of the year	7,787	\$ 81.40
Options exercised	-	-
Options forfeited	<u>(1,200)</u>	-
Options outstanding at end of the year	<u>6,587</u>	76.10
Options exercisable at end of the year	<u>4,947</u>	76.10
	<b>Year Ended December 31, 2017</b>	
	<b>Granted on May 7, 2013</b>	
	<b>Number of Options</b>	<b>Weighted- average Exercise Price</b>
	<b>(In Thousands)</b>	<b>NT\$</b>
<u>Employee stock options</u>		
Options outstanding at beginning of the year	6,587	\$ 76.10
Options exercised	-	-
Options forfeited	<u>(661)</u>	-
Options outstanding at end of the year	<u>5,926</u>	70.70
Options exercisable at end of the year	<u>5,926</u>	70.70
	<b>Year Ended December 31, 2018</b>	
	<b>Granted on May 7, 2013</b>	
	<b>Number of Options</b>	<b>Weighted- average Exercise Price</b>
	<b>(In Thousands)</b>	<b>NT\$</b>
<u>Employee stock options</u>		
Options outstanding at beginning of the year	5,926	\$ 70.70
Options exercised	-	-
Options forfeited	<u>(608)</u>	-
Options outstanding at end of the year	<u>5,318</u>	66.20
Options exercisable at end of the year	<u>5,318</u>	66.20

As of December 31, 2017 information about employee stock options outstanding was as follows:

Options Outstanding			Options Exercisable		
Range of Exercise Price	Number of Options	Weighted-average Remaining Contractual Life	Weighted-average Exercise Price	Number of Options	Weighted-average Exercise Price
NT\$	(In Thousands)	(Years)	NT\$	(In Thousands)	NT\$
\$ 70.70	5,926	1.35	\$ 70.70	5,926	\$ 70.70

As of December 31, 2018 information about employee stock options outstanding was as follows:

Options Outstanding			Options Exercisable		
Range of Exercise Price	Number of Options	Weighted-average Remaining Contractual Life	Weighted-average Exercise Price	Number of Options	Weighted-average Exercise Price
NT\$	(In Thousands)	(Years)	NT\$	(In Thousands)	NT\$
\$ 66.20	5,318	0.35	\$ 66.20	5,318	\$ 66.20

SENAO used the fair value method to evaluate the options using the Black-Scholes model and the related assumptions and the fair value of the options were as follows:

	<b>Stock Options Granted on May 7, 2013</b>
Grant-date share price (NT\$)	\$93.00
Exercise price (NT\$)	\$93.00
Dividends yield	-
Risk-free interest rate	0.91%
Expected life	4.375 years
Expected volatility	36.22%
Weighted-average fair value of grants (NT\$)	\$28.72

Expected volatility was based on the historical share price volatility of SENAO over the period equal to the expected life of SENAO Plan.

b. SENAO transferred the treasury stock

The Board of Directors of SENAO resolved to transfer treasury stock to specific employees in May and November 2017. The aforementioned treasury stock transferred to employees were measured at the fair value of the grant date. SENAO totally transferred 3,342 thousand shares of treasury stock and the compensation cost of \$9 million was recognized for the year ended December 31, 2017.

The Board of Directors of SENAO resolved to transfer treasury stock 6,658 thousand shares to specific employees in April 2018. The aforementioned treasury stock transferred to employees were measured at the fair value on the grant date. The compensation cost of \$15.6 million was recognized for the year ended December 31, 2018.

SENAO used the fair value method to evaluate share-based payment transaction using the Black-Scholes model and the related assumptions and the fair value of the option were as follows:

	<b>Stock Options Granted on May 23, 2017</b>	<b>Stock Options Granted on November 17, 2017</b>	<b>Stock Options Granted on May 7, 2018</b>
Grant-date share price (NT\$)	\$53.60	\$51.00	\$51.60
Exercise price (NT\$)	\$49.28	\$49.28	\$49.28
Dividends yield	-	-	-
Risk-free interest rate	0.59%	0.59%	0.59%
Expected life	9 days	14 days	18 days
Expected volatility	12.35%	9.94%	8.78%
Weighted average fair value of grants (NT\$)	\$4.33	\$1.75	\$2.34

Expected volatility was based on the historical share price volatility of SENAO over three months before the grant date.

- c. CHIEF share-based compensation plan (“CHIEF Plan”) described as follows:

<b>Effective Date</b>	<b>Grant Date</b>	<b>Stock Options Units</b>	<b>Exercise Price NT\$</b>
2015.11.17	2015.10.22	2,000	\$34.40 (Original price \$43.00)
2017.12.18	2017.12.19	950	140.60 (Original price \$147.00)
	2018.10.31	50	147.00

Each option is eligible to subscribe for one thousand common stocks when exercisable. The options are granted to specific employees that meet the vesting conditions. The CHIEF Plan has exercise price adjustment formula upon the changes in common stocks or distribution of cash dividends. The options of CHIEF Plan are valid for five years and the graded vesting schedule will vest two years after the grant date.

The compensation costs for stock options granted on October 22, 2015 were \$4 million, \$3 million and \$1 million for the years ended December 31, 2016, 2017 and 2018, respectively.

The compensation costs for stock options granted on December 19, 2017 were \$0.1 million and \$0.6 million for the years ended December 31, 2017 and 2018, respectively.

The compensation cost for stock options granted on October 31, 2018 was \$0.1 million for the year ended December 31, 2018.

CHIEF modified the plan terms of stock options granted on October 22, 2015 in July 2016, the exercise price changed from \$43.00 to \$34.40 per share. The modification did not cause any incremental fair value granted.

CHIEF modified the plan terms of stock options granted on December 19, 2017 in June and August 2018 and the exercise price changed from \$147.00 to \$144.10 and \$144.10 to \$140.60 per share, respectively. The modification did not cause any incremental fair value granted.

Information about CHIEF's outstanding stock options for the years ended December 31, 2016, 2017 and 2018 was as follows:

	<b>Year Ended December 31, 2016</b>	
	<b>Granted on October 22, 2015</b>

Expected volatility	21.02%	17.35%	16.60%
Weighted average fair value of grants (NT\$)	\$4,863	\$2,318	\$33,540

Expected volatility was based on the average annualized historical share price volatility of CHIEF's comparable companies before the grant date.

d. New shares reserved for subscription by employees under cash injection of CHIEF

In March 2018, the Board of Directors of CHIEF approved the cash injection to issue 7,842 thousand shares and simultaneously reserved 1,176 thousand shares for subscription by employees according to the Company Act of the ROC. Furthermore, when the employees subscribed some shares or discarded their rights to subscribe shares, the Board of Directors of CHIEF authorized the chairman of the Board of Directors to contact specific people or group to subscribe.

The aforementioned options granted to employees are accounted for and measured at fair value of the grant date. No compensation cost was recognized for the year ended December 31, 2018.

CHIEF used the fair value method to evaluate the options granted to employees on May 22, 2018 using the Black-Scholes model and the related assumptions and the fair value of the options were as follows:

	<b>Stock Options Granted on May 22, 2018</b>
Grant-date share price (NT\$)	\$156.41
Exercise price (NT\$)	\$170.00
Dividends yield	-
Risk-free interest rate	0.34%
Expected life	7 days
Expected volatility	14.33%
Weighted average fair value of grants (NT\$)	\$ -

Expected volatility was based on the average annualized historical share price volatility of CHIEF's comparable companies before the grant date.

e. New shares reserved for subscription by employees under cash injection of CHPT

1) Capital Increase in March 2016

On December 8, 2015, the Board of Directors of CHPT approved the cash injection to issue 2,787 thousand shares and simultaneously reserved 418 thousand shares for subscription by employees according to the Company Act of the ROC. Furthermore, when the employees subscribed some shares or discarded their rights to subscribe shares, the Board of Directors of CHPT authorized the chairman of the Board of Directors to contact specific people or group to subscribe.

The aforementioned options granted to employees are accounted for and measured at fair value. The compensation cost was \$0.016 million for the year ended December 31, 2016.

CHPT used the fair value method to evaluate the options granted to employees on March 10, 2016 using the Black-Scholes model and the related assumptions and the fair value of the options were as follows:

	<b>Stock Options Granted on March 10, 2016</b>
Grant-date share price (NT\$)	\$302.46
Exercise price (NT\$)	\$360.00
Dividends yield	-
Risk-free interest rate	0.37%
Expected life	12 days
Expected volatility	37.43%
Weighted average fair value of grants (NT\$)	\$0.04

Expected volatility was based on the average annualized historical share price volatility of CHPT's comparable companies before the grant date.

## 2) Capital Increase in September 2017

On February 8, 2017, the Board of Directors of CHPT approved the cash injection to issue 2,000 thousand shares and simultaneously reserved 300 thousand shares for subscription by employees according to the Company Act of the ROC. Furthermore, when the employees subscribed some shares or discarded their rights to subscribe shares, the Board of Directors of CHPT authorized the chairman of the Board of Directors to contact specific people or group to subscribe.

The aforementioned options granted to employees are accounted for and measured at fair value. The compensation cost was \$6 million for the year ended December 31, 2017.

CHPT used the fair value method to evaluate the options granted to employees on September 18, 2017 using the Black-Scholes model and the related assumptions and the fair value of the options were as follows:

	<b>Stock Options Granted on September 18, 2017</b>
Grant-date share price (NT\$)	\$1,295.00
Exercise price (NT\$)	\$1,267.33
Dividends yield	-
Risk-free interest rate	0.35%
Expected life	4 days
Expected volatility	28.30%
Weighted average fair value of grants (NT\$)	\$31.60

Expected volatility was based on the historical share price volatility of CHPT over the period equal to the expected life.

## 35. NON-CASH TRANSACTIONS

For the years ended December 31, 2016, 2017 and 2018, the Company entered into the following non-cash investing activities:

	<b>Year Ended December 31</b>		
	<b>2016</b>	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>		
Increase in property, plant and equipment	\$ 24,591	\$ 26,069	\$ 27,979
Other payables	<u>(1,074)</u>	<u>806</u>	<u>571</u>
	<u>\$ 23,517</u>	<u>\$ 26,875</u>	<u>\$ 28,550</u>

### 36. OPERATING LEASE ARRANGEMENTS

a. The Company as lessee

Except for the ST-2 satellite referred in Note 40 to the consolidated financial statements, the Company entered into several lease agreements for base stations located all over in Taiwan. The future aggregate minimum lease payments under non-cancellable operating leases are as follows:

	December 31	
	2017	2018
	NT\$	NT\$
	(In Millions)	
Within one year	\$ 2,918	\$ 3,439
Longer than one year but within five years	5,796	6,375
Longer than five years	<u>779</u>	<u>744</u>
	<u>\$ 9,493</u>	<u>\$ 10,558</u>

b. The Company as lessor

The Company leases out some land and buildings. The future aggregate minimum lease collection under non-cancellable operating leases are as follows:

	December 31	
	2017	2018
	NT\$	NT\$
	(In Millions)	
Within one year	\$ 353	\$ 344
Longer than one year but within five years	659	580
Longer than five years	<u>243</u>	<u>206</u>
	<u>\$ 1,255</u>	<u>\$ 1,130</u>

### 37. CAPITAL MANAGEMENT

The Company manages its capital to ensure that entities in the Company will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Company consists of debt of the Company and the equity attributable to the parent.

Some consolidated entities are required to maintain minimum paid-in capital amount as prescribed by the applicable laws.

The management reviews the capital structure of the Company as needed. As part of this review, the management considers the cost of capital and the risks associated with each class of capital.

According to the management's suggestion, the Company maintains a balanced capital structure through paying cash dividends, increasing its share capital, purchasing outstanding shares, and proceeds from new debt or repayment of debt.

## 38. FINANCIAL INSTRUMENTS

Financial assets at amortized cost (Note a)	-	70,241
Financial assets at FVOCI	-	6,933
<u>Financial liabilities</u>		
Measured at FVTPL		
Held for trading	1	1
Hedging derivative financial liabilities	1	-
Measured at amortized cost (Note b)	39,725	40,334

Note a: The balances included cash and cash equivalents, trade notes and accounts receivable, receivables from related parties, other current monetary assets and refundable deposits (classified as other noncurrent assets) which were loans and receivables. Please refer to Notes 7, 11, 14, 20 and 40. Such amounts are reclassified as financial assets at amortized cost upon the application of IFRS 9 starting from 2018.

Note b: The balances included short-term loans, trade notes and accounts payable, payables to related parties, partial other payables, customers' deposits and long-term loans which were financial liabilities carried at amortized cost. Please refer to Notes 22, 23, 24, 25 and 40.

### Financial Risk Management Objectives

The main financial instruments of the Company include equity investments, trade notes and accounts receivable, trade notes and accounts payable as well as loans. The Company's Finance Department provides services to its business units, co-ordinates access to domestic and international capital markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including foreign currency risk, interest rate risk and other price risk), credit risk, and liquidity risk.

The Company seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the Board of Directors. Those derivatives are used to hedge the risks of exchange rate fluctuation arising from operating or investment activities. Compliance with policies and risk exposure limits is reviewed by the Company's Finance Department on a continuous basis. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

Chunghwa reports the significant risk exposures and related action plans timely and actively to the audit committee and if needed to the Board of Directors.

a. Market risk

The Company is exposed to market risks of changes in foreign currency exchange rates and interest rates. The Company uses forward exchange contracts to hedge the exchange rate risk arising from assets and liabilities denominated in foreign currencies.

There were no changes to the Company's exposure to market risks or the manner in which these risks are managed and measured.

1) Foreign currency risk

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the balance sheet dates were as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
<b>Assets</b>		
USD	\$ 5,584	\$ 5,903
EUR	28	34
SGD	63	124
JPY	36	17
RMB	3	2
<b>Liabilities</b>		
USD	4,964	6,999
EUR	1,323	1,217
SGD	96	51
JPY	12	14
RMB	-	-

The carrying amounts of the Company's derivatives with exchange rate risk exposures at the balance sheet dates were as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
<b>Assets</b>		
USD	\$ -	\$ -
EUR	-	1
<b>Liabilities</b>		
USD	-	-
EUR	1	1

Foreign currency sensitivity analysis

The Company is mainly exposed to the fluctuations of the currencies, USD, EUR, SGD, JPY and RMB, listed above.

The following table details the Company's sensitivity to a 5% increase and decrease in the functional currency against the relevant foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible changes in foreign exchange rates. The

sensitivity analysis includes only outstanding foreign currency denominated monetary items and forward exchange contracts. A positive number below indicates an increase in pre-tax profit or equity where the functional currency weakens 5% against the relevant currency.

	<b>Year Ended December 31</b>		
	<b>2016</b>	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>		
Profit or loss			
Monetary assets and liabilities (a)			
USD	\$ 54	\$ 31	\$ (55)
EUR	(48)	(65)	(59)
SGD	5	(2)	4
JPY	-	1	-
RMB	1	-	-
Derivatives (b)			
USD	3	6	3
EUR	8	3	10
Equity			
Derivatives (c)			
EUR	5	7	9

- a) This is mainly attributable to the exposure to foreign currency denominated receivables and payables of the Company outstanding at the balance sheet dates.
- b) This is mainly attributable to the forward exchange contracts.
- c) This is mainly attributable to the changes in the fair value of derivatives that are designated as cash flow hedges.

For a 5% strengthening of the functional currency against the relevant currencies, it would have the equal but opposite effect on the pre-tax profit or equity for the amounts shown above.

## 2) Interest rate risk

The carrying amounts of the Company's exposures to interest rates on financial assets and financial liabilities at the balance sheet dates were as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Fair value interest rate risk		
Financial assets	\$ 25,911	\$ 25,822
Cash flow interest rate risk		
Financial assets	6,715	9,161
Financial liabilities	1,670	1,700

### Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. A 25 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points higher/lower and all other variables were held constant, the Company's pre-tax income would increase/decrease by \$12 million, \$13 million and \$19 million for the years ended December 31, 2016, 2017 and 2018, respectively. This is mainly attributable to the Company's exposure to floating interest rates on its financial assets and short-term and long-term loan.

### 3) Other price risk

The Company is exposed to equity price risks arising from holding other company's equity. Equity investments are held for strategic rather than trading purposes. The management managed the risk through holding various risk portfolios. Further, the Company assigned finance and investment departments to monitor the price risk.

#### Equity price sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to equity price risks at the end of the reporting period.

If equity prices had been 5% higher/lower, pre-tax profit and pre-tax other comprehensive income for the year ended December 31, 2018 would have increased/decreased by \$26 million and \$347 million as a result of the changes in fair value of financial assets at FVTPL and financial assets at FVTOCI, respectively. If equity prices had been 5% higher/lower, other comprehensive income would have increased/decreased by \$126 million and \$156 million as a result of the changes in fair value of available-for-sale assets for the years ended December 31, 2016 and 2017, respectively.

### b. Credit risk

Credit risk refers to the risk that a counterparty would default on its contractual obligations resulting in financial loss to the Company. The maximum credit exposure of the aforementioned financial instruments is equal to their carrying amounts recognized in consolidated balance sheet as of the balance sheet date.

The Company has large trade receivables outstanding with its customers. A substantial majority of the Company's outstanding trade receivables are not covered by collateral or credit insurance. The Company has implemented ongoing measures including enhancing credit assessments and strengthening overall risk management to reduce its credit risk. While the Company has procedures to monitor and limit exposure to credit risk on trade receivables, there can be no assurance such procedures will effectively limit its credit risk and avoid losses. This risk is heightened during periods when economic conditions worsen.

As the Company serves a large number of unrelated consumers, the concentration of credit risk was limited.

### c. Liquidity risk

The Company manages and maintains sufficient cash and cash equivalent position to support the operations and reduce the impact on fluctuation of cash flow.

#### 1) Liquidity and interest risk tables

The following tables detailed the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables had been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company is required to pay.

	Weighted Average Effective Interest Rate (%)	Less than	1-3 Months	3 Months to	1-5 Years	More than	Total
		1 Month	NT\$	NT\$	1 Year	NT\$	5 Year
(In Millions)							
<u>December 31, 2017</u>							
Non-derivative financial liabilities							
Non-interest bearing	-	\$ 41,884	\$ -	\$ 3,197	\$ 4,671	\$ -	\$ 49,752
Floating interest rate instruments	0.97	50	-	20	1,600	-	1,670
		<u>\$ 41,934</u>	<u>\$ -</u>	<u>\$ 3,217</u>	<u>\$ 6,271</u>	<u>\$ -</u>	<u>\$ 51,422</u>
<u>December 31, 2018</u>							
Non-derivative financial liabilities							
Non-interest bearing	-	\$ 41,808	\$ -	\$ 2,890	\$ 4,717	\$ -	\$ 49,415
Floating interest rate instruments	0.98	-	-	100	1,600	-	1,700
		<u>\$ 41,808</u>	<u>\$ -</u>	<u>\$ 2,990</u>	<u>\$ 6,317</u>	<u>\$ -</u>	<u>\$ 51,115</u>

The following table detailed the Company's liquidity analysis for its derivative financial instruments. The table had been drawn up based on the undiscounted gross inflows and outflows on those derivatives that require gross settlement.

	Less than	1-3 Months	3 Months to	1-5 Years	Total
	1 Month	NT\$	NT\$	1 Year	NT\$
(In Millions)					
<u>December 31, 2017</u>

	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Unsecured bank loan facility		
Amount used	\$ 90	\$ 133
Amount unused	<u>45,749</u>	<u>46,328</u>
	<u>\$ 45,839</u>	<u>\$ 46,461</u>
Secured bank loan facility		
Amount used	\$ 1,600	\$ 1,600
Amount unused	<u>1,910</u>	<u>1,340</u>
	<u>\$ 3,510</u>	<u>\$ 2,940</u>

### 39. FAIR VALUE INFORMATION

The fair value measurement guidance establishes a framework for measuring fair value and expands disclosure about fair value measurements. The standard describes a fair value hierarchy based on three levels of inputs that may be used to measure fair value. These levels are:

Level 1 fair value measurements: These measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements: These measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 fair value measurements: These measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

- a. Financial instruments that are not measured at fair value but for which fair value is disclosed

The Company considers that the carrying amounts of financial assets and liabilities not measured at fair value approximate their fair values or the fair values cannot be reliably estimated, no financial instruments need to be disclosed on balance sheet date.

- b. Financial instruments that are measured at fair value on a recurring basis

December 31, 2017

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Available-for-sale financial assets				
Listed securities				
Equity investments	<u>\$ 3,125</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,125</u>

(Continued)

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Financial liabilities at FVTPL				
Derivative	<u>\$ -</u>	<u>\$ 1</u>	<u>\$ -</u>	<u>\$ 1</u>
Hedging derivative financial liabilities	<u>\$ -</u>	<u>\$ 1</u>	<u>\$ -</u>	<u>\$ 1</u> (Concluded)

December 31, 2018

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Financial assets at FVTPL				
Non-listed stocks	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 517</u>	<u>\$ 517</u>
Hedging financial assets	<u>\$ -</u>	<u>\$ 1</u>	<u>\$ -</u>	<u>\$ 1</u>
Financial assets at FVOCI				
Equity investment	<u>\$ 2,900</u>	<u>\$ -</u>	<u>\$ 4,033</u>	<u>\$ 6,933</u>
Financial liabilities at FVTPL				
Derivatives	<u>\$ -</u>	<u>\$ 1</u>	<u>\$ -</u>	<u>\$ 1</u>

There were no transfers between Levels 1 and 2 for the years ended December 31, 2017 and 2018.

The reconciliations for financial assets measured at Level 3 are listed below:

<b>Financial Assets</b>	<b>Measured at Fair Value through Profit or Loss</b>	<b>Measured at Fair Value through Other Comprehensive Income</b>	<b>Total</b>
	<b>NT\$</b>	<b>NT\$</b>	<b>NT\$</b>
		<b>(In Millions)</b>	
Balance at January 1, 2018 (IAS 39)	\$ -	\$ -	\$ -
The effect on retrospective adjustment of applying IFRS 9	<u>543</u>	<u>3,925</u>	<u>4,468</u>
Balance at January 1, 2018 (IFRS 9)	543	3,925	4,468
Acquisition	-	290	290
Recognized in profit or loss under "Other gains and losses"	(26)	-	(26)
Recognized in other comprehensive income under "Unrealized gain or loss on investments in equity instruments at fair value through other comprehensive income"	-	(175)	(175)
Proceeds from return of investees	<u>-</u>	<u>(7)</u>	<u>(7)</u>
Balance at December 31, 2018	<u>\$ 517</u>	<u>\$ 4,033</u>	<u>\$ 4,550</u>
Unrealized loss in 2018	<u>\$ (26)</u>		

The fair values of financial assets and financial liabilities of Level 2 are determined as follows:

- 1) The fair values of financial assets and financial liabilities with standard terms and conditions and traded in active markets are determined with reference to quoted market prices.
- 2) For derivatives, fair values are estimated using discounted cash flow model. Future cash flows are estimated based on observable inputs including foreign exchange rates at the end of the reporting periods, and forward and spot exchange rates stated in the contracts, discounted at a rate that reflects the credit risk of various counterparties.

The fair values of non-listed domestic and foreign equity investments were Level 3 financial assets, and determined using the market approach by reference the Price-to-Book ratios (P/B ratios) of peer companies that traded in active market or using assets approach. The significant unobservable inputs used were listed in the table below. A decrease in discount for the lack of marketability or noncontrolling interests discount would result in increases in the fair values.

	<b>December 31, 2018</b>
Discount for lack of marketability	12.73%-20.00%
Noncontrolling interests discount	24.41%-25.00%

If the inputs to the valuation model were changed to reflect reasonably possible alternative assumptions while all the other variables were held constant, the fair values of equity investments would increase as below table. When related discounts increase, the fair value of equity investments would be the negative amount of the same amount.

	<b>December 31, 2018</b>
	<b>NT\$</b>
	<b>(In Millions)</b>
Discount for lack of marketability 5% decrease	<u>\$ 268</u>
Noncontrolling interests discount 5% decrease	<u>\$ 37</u>

#### 40. RELATED PARTIES TRANSACTIONS

The ROC Government, one of Chunghwa's customers has significant equity interest in Chunghwa. Chunghwa provides fixed-line services, wireless services, internet and data and other services to the various departments and institutions of the ROC Government in the normal course of business and at arm's-length prices. The transactions with the ROC government bodies have not been provided because the transactions are not individually or collectively significant. However, the related revenues and operating costs have been appropriately recorded.

- a. The Company engages in business transactions with the following related parties:

<b>Company</b>	<b>Relationship</b>
Taiwan International Standard Electronics Co., Ltd.	Associate
So-net Entertainment Taiwan Limited	Associate
KKBOX Taiwan Co., Ltd.	Associate
KingwayTek Technology Co., Ltd.	Associate

	<u>\$ 320</u>	<u>\$ 390</u>	<u>\$ 312</u>

7) Prepayments

Chunghwa entered into a contract with ST-2 Satellite Ventures Pte., Ltd. on March 12, 2010 to lease capacity on the ST-2 satellite. This lease is for 15 years which should start from the official operation of ST-2 satellite and the total contract value is approximately \$6,000 million (SG\$261 million), including a prepayment of \$3,068 million, and the rest of amount should be paid annually when ST-2 satellite starts its official operation. ST-2 satellite was launched in May 2011, and began its official operation in August 2011. The total rental expense for the year ended December 31, 2016 was \$394 million, which consisted of an offsetting credit of the prepayment of \$204 million and an additional accrual of \$190 million. The total rental expense for the year ended December 31, 2017 was \$392 million, which consisted of an offsetting credit of the prepayment of \$204 million and an additional accrual of \$188 million. The total rental expense for the year ended December 31, 2018 was \$394 million, which consisted of an offsetting credit of the prepayment of \$204 million and an additional accrual of \$190 million. The prepaid rents (classified as prepayments) as of December 31, 2017 and 2018, were as follows:

	<b>December 31</b>	
	<b>2017</b>	<b>2018</b>
	<b>NT\$</b>	<b>NT\$</b>
	<b>(In Millions)</b>	
Prepaid rents - current	\$ 204	\$ 205
Prepaid rents - noncurrent	<u>1,551</u>	<u>1,346</u>
	<u>\$ 1,755</u>	<u>\$ 1,551</u>

c. Compensation of key management personnel

The compensation of directors and other key management personnel for the years ended December 31, 2016, 2017 and 2018 were as follows:

	<b>Year Ended December 31</b>		
	<u>2016</u>	<u>2017</u>	<u>2018</u>
	NT\$	NT\$	NT\$
	(In Millions)		
Short-term employee benefits	\$ 251	\$ 254	\$ 282
Post-employment benefits	8	9	10
Share-based payment	<u>2</u>	<u>2</u>	<u>9</u>
	<u>\$ 261</u>	<u>\$ 265</u>	<u>\$ 301</u>

The compensation of directors and other key management personnel was mainly determined by the compensation committee having regard to the performance of individual and market trends.

#### 41. PLEDGED ASSETS

The following assets are pledged as collaterals for bank loans and custom duties of the imported materials.

	<b>December 31</b>	
	<u>2017</u>	<u>2018</u>
	NT\$	NT\$
	(In Millions)	
Property, plant and equipment	\$ 2,550	\$ 2,520
Land held under development (included in inventories)	1,999	1,999
Restricted assets (included in other assets - others)	<u>3</u>	<u>3</u>
	<u>\$ 4,552</u>	<u>\$ 4,522</u>

#### 42. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

The Company's significant contingent liabilities and recognized commitments, excluding those disclosed in other notes, were as follows:

- a. Acquisitions of land and buildings of \$174 million as of December 31, 2018.
- b. Acquisitions of telecommunications equipment of \$15,760 million as of December 31, 2018.
- c. Unused letters of credit amounting to \$50 million as of December 31, 2018.
- d. A commitment to contribute \$2,000 million to a Piping Fund administered by the Taipei City Government, of which \$1,000 million was contributed by Chunghwa on August 15, 1996 (classified as other monetary assets - noncurrent). If the fund is not sufficient, Chunghwa will contribute the remaining \$1,000 million upon notification from the Taipei City Government.
- e. CHPT signed the contract for its headquarters construction amounted to \$1,614 million in July 2017. The payment of \$567 million has been made as of March 31, 2019.

#### 43. SIGNIFICANT SUBSEQUENT EVENTS

The participation of establishing Next Commercial Bank Co., Ltd. (“NCB”) was approved by Chunghwa’s Board of Directors in January 2019. The Company expects to invest \$4,500 million at most in NCB’s common stock and the Company’s equity ownership interest in NCB will be no more than 45%. The establishment of NCB is subject to the approval of FSC. As of March 31, 2019, Chunghwa prepaid \$838 million for the application of establishment of NCB.

#### 44. SEGMENT INFORMATION

The Company has the following reportable segments that provide different products or services. The reportable segments are managed separately because each segment represents a strategic business unit that serves different markets. Segment information is provided to CEO who allocates resources and assesses segment performance. The Company’s measure of segment performance is mainly based on revenues and income before income tax. The Company’s reportable segments are as follows:

- a. Domestic fixed communications business - the provision of local telephone services, domestic long distance telephone services, broadband access, and related services;
- b. Mobile communications business - the provision of mobile services, sales of mobile handsets and data cards, and related services;
- c. Internet business - the provision of HiNet services and related services;
- d. International fixed communications business - the provision of international long distance telephone services and related services;
- e. Others - the provision of non-telecom services and the corporate related items not allocated to reportable segments.

Some operating segments have been aggregated into a single operating segment taking into account the following factors: (a) similar economic characteristics such as long-term gross profit margins; (b) the nature of the telecommunications products and services are similar; (c) the nature of production processes of the telecommunications products and services are similar; (d) the type or class of customer for the telecommunications products and services are similar; and (e) the methods used to provide the services to the customers are similar.

There was no material differences between the accounting policies of the operating segments and the accounting policies described in Note 3.

##### a. Segment revenues and operating results

Analysis by reportable segment of revenues and operating results of continuing operations was as follows:

	<b>Domestic Fixed Communi- cations Business</b>	<b>Mobile Communi- cations Business</b>	<b>Internet Business</b>	<b>International Fixed Communi- cations Business</b>	<b>Others</b>	<b>Total</b>
	NT\$	NT\$	NT\$	NT\$	NT\$	NT\$
